D90-270 90° SELF DUMPING HOPPER

Common applications: steel chips, steel shavings, wood, plastics.

(D90-270 SHOWN)

This hopper dumps to a full 90 degrees when attached to a forklift truck. It is designed for the collection of scrap, waste and recycled material used from CNC machining centers and conveyors. The hopper returns to an upright position when lowered to the ground.

CONSTRUCTION: 10G hot rolled steel body, reinforced with 3/8" x 1 1/2" solid bar for superior strength. All bases are constructed with 1/4" hot rolled steel and have 2-1/2" x 33-1/2" fork opening. Standard finish is safety green enamel paint. 40-MSC chain W/Grab Hook is included. Weight capacity is 1,000 – 2,000 LBS.

90° DUMP HOPPERS (1000 - 2000 LBS)

MODEL	SIZE	L	W	H	WEIGHT	CAPACITY
D90-068	1/4 Cu Yd	47 3/8	49	15 3/8	355	1000 LBS
