Smokers Cease-Fire® Cigarette Butt Receptacles by JUSTRITE®

The safe and attractive answer to cigarette butt disposal

Smokers Cease-Fire® safely contains unsightly cigarette litter in an attractive housing specially designed to reduce the risk of fire. Property is protected and remains neat and clean making it ideal for smoking areas, entrances and break rooms.

An innovative self-extinguishing design snuffs out butts quickly once they are dropped in. Large galvanized steel liner pail collects butts and removes easily for trouble-free maintenance. The **original, larger Smokers Cease-Fire®** has a 4 gallon liner pail, stands 38½" high and has been fire tested and approved for safety by Factory Mutual. An optional **Table Top Accessory** attaches quickly and offers a convenient place for beverages, sunglasses, etc. The smaller **Personal Smokers Cease-Fire®**, only 30" tall with a compact footprint of 11", positions snugly against chairs and works well in tight quarters or light smoking traffic areas. Both models have an exclusive internal drip lip design to keep ugly tar condensation from escaping. Low maintenance polyethylene body with a flame retardant additive won't rust, dent crack or peel and resists fading. Molded-in tie-down notches on both sides provide security from theft or severe weather.

Add a table top to the original Smokers Cease-Fire® when used next to park benches or poolside chairs. Conveniently holds up to six beverage cans or spare items such as sunglasses, lotion, keys, etc.

The Personal Smokers Cease-Fire® fits easily into snug areas. Its compact size is less obtrusive and is ideal for sitting areas with chairs such as decks, patios, and verandas.

Ideal for all types of establishments!

- office buildings
- malls and retail locations
- restaurants and fast food
- gas and service stations
- airports and train stations
- manufacturing plants
- hotels and country clubs
- hospitals and sports centers
- colleges and universities
- recreation parks

JUSTRITE® **New!** Product

ESSENTIALS

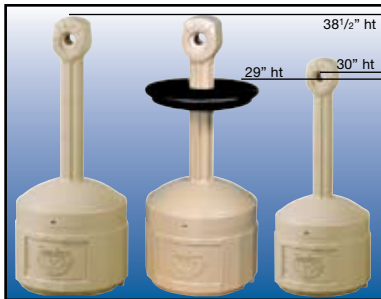

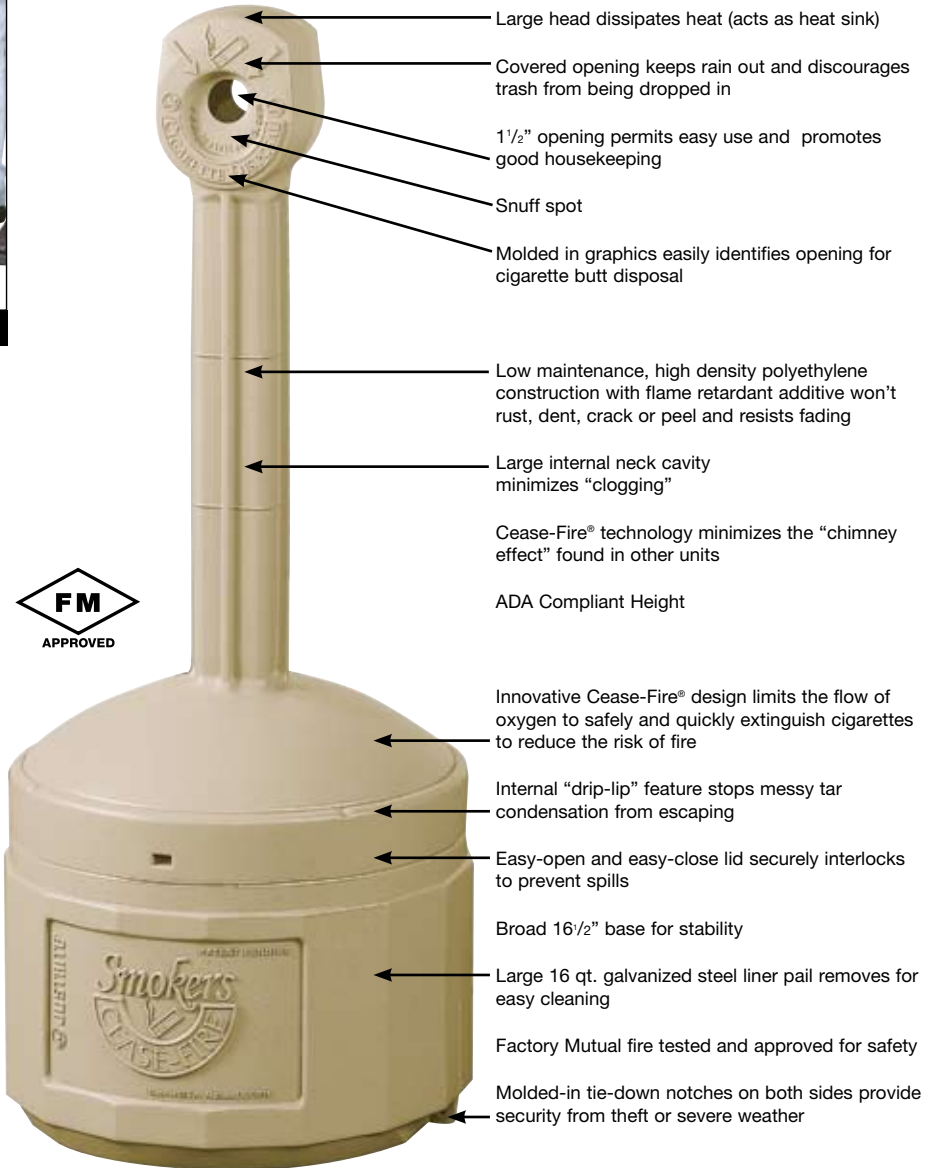

Table Top Accessory

No need for a separate table! This optional accessory in durable polyethylene with an easy to clean textured surface, fits the taller, 38 1/2" high model. Table top halves securely clamp to neck with a wrench in less than five minutes for a tight compression fit.

Easy Cleaning

For easy maintenance, simply remove the finger screw and lift off the interlocking top. The galvanized steel liner pail with bail handle removes for easy disposal.
