

Shop Desk

The Penco Shop Desk is ergonomically designed for people in an active work environment. The angled desktop creates a comfortable surface for handwriting and data entry. The riser compartments allow work materials to be organized within easy reach. The lower riser compartment is large enough to store a keyboard and work materials so the desktop can be free of clutter. Additional items can be stored in the drawer.

Features

Adjustable Heights: At the top of each Shop Desk leg there are two sets of bolt holes that allow the desk height to be adjusted from 41" to 43-1/2".

Desktop: Welded steel construction, width 34" x depth 30".

Drawer: Easy slide drawer has welded construction, 19" x 19" x 5".

Drawer Lock: A Built-In Drawer Lock with 2 keys is included.

Leg Supports: Two side leg supports and center support that doubles as a foot rest create a stable work surface.

Riser with Storage Bins: Each left and right upper compartment can store a ream of paper. The middle upper compartment is ideal for pens, tags and smaller forms. The lower compartment is 34" wide and 4" high. Riser is a welded assembly that is bolted to the sides and back of the desktop.

Easy Assembly: Quick assembly with just a flat head screw driver and 7/16" wrench.

Riser has Access Hole for Computer, Electrical and Telephone Wires
