

Albany UltraClean Hygienic Environmental Control

ASSA ABLOY

The global leader in
door opening solutions

The Albany UltraClean protects sanitary food processing environments.

From ASSA ABLOY Entrance Systems, the global leader in door opening solutions, the Albany UltraClean is the ideal door for the food industry. The Albany UltraClean protects against contamination and controls environments with varying temperatures.

Gain Environmental Control

- Incredibly fast opening and closing speeds, and tight seals help control air infiltration, maintain temperatures and decrease the spread of contaminants.
- Constructed with grade 304 stainless steel side columns, top roll and motor cover, corner brackets and bottom bar for easy cleaning and protection against moisture, bacteria and corrosion.
- Two piece side column design allows columns to be taken apart without tools for easy cleaning.
- Tight seals protect against pests.
- Optional USDA white fabric available.

Ensure the Safety of Products and Personnel

The Albany UltraClean features reliable and intuitive safety features that allow for trouble-free operation.

- If the door panel is impacted, it will automatically repair itself with the simple push of a button, preventing tears in the door panel to keep products protected.
- Safety Light Curtains provide a 6-foot high grid of infrared beams across the doorway. If that grid is interrupted, the door will automatically reverse to the open position.
- Wireless Safety System eliminates coil cords, and the high maintenance costs and lengthy down time associated with them.

Increase Productivity, Lower Costs

The unique design and functions of the Albany UltraClean help lower overall operational costs.

- The tight seals, and fast opening and closing speeds relieve burdens on filtration equipment, while allowing products and personnel to move quickly and easily throughout the facility.
- The Albany UltraClean can help air handling equipment attain a lower cfm.

Albany UltraClean Applications

Ideal for protecting hygienic food processing areas, separating sterile and non-sterile areas, access to production, washing and storage areas, and high-traffic entry and exit areas.

Fast Speeds

Opening speeds of up to 100" per second.

Stainless Steel Construction

Side Columns, top roll cover, motor cover, corner brackets and bottom bar are made of grade 304 stainless steel for hygiene control.

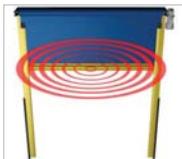

EasyClean Side Column Design

Two piece side column design - columns can be taken apart without tools for easy cleaning.

Durable Panel Design

40 Oz Vinyl panel material. Optional USDA white fabric available.

Wireless Safety System

Eliminates coil cords, high maintenance costs and lengthy downtime.

Safety Light Curtain

6-foot high field of infrared beams sense interruption and automatically reverse door to the open position.

Technical Specs

Opening and Closing Speeds		Door Components	
Opening up to	100" per second	Side Frames	Stainless Steel
Closing up to	TBD" per second	Bottom Beams	Stainless Steel
Door Dimensions		Top Roll Cover	Stainless Steel
Max Height	13 ft (4,000 mm)	Motor Cover	Stainless Steel
Max Width	13 ft (4,000 mm)	Control and Drive System	
Min Height	3.2 ft. (1,000 mm)	MCC VectorControl™	Variable frequency drive with soft start / soft stop and absolute encoder. 24V DC, UL listed
Min Width	3.2 ft. (1,000 mm)	Remote Monitoring Systems	Optional – Only available with the MCC VectorControl™
Safety Features		Input Voltage	208-240 V, 440-480 V, 575-600 V
Photo Eye	Standard	Motor	1.0-Hp, 3 phase, 60 Hz, 10 amps
Safety Light curtain	Full through-beam light curtain up to six feet tall	Limits Adjustment	At keypad interface
Wireless Safety System	No coil cords	Protection	IP-55, NEMA 4
Door Panel			
Vinyl	40 oz replaceable panel material		
USDA White	Optional		

We offer various options and actuation devices for all Albany products.

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. With our worldwide presence we offer products and services dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
