WIRE HARNESS FRAME

- A customer favorite! This frame is the result of three years of cooperative design and development with several major wire harness fabricators
- Electric drive provides 36" of vertical adjustability with the board positioned in the vertical or horizontal position

CUSTOM DESIGNS

BOSTONtec custom designs frames to support a series of printers and tape machines. Our experienced design team can work with your engineering department to custom design frames and accessories to meet your task at hand while providing a return on your investment.

BENEFITS:

- Designed with an ergonomic focus
- Incredibly sturdy, reliable and durable
- Adjusts to a wide range of employee heights
- Reduces the negative effects of repetitive motions
- Configurable to your specific task
- Provides a long life in tough environments
- Custom designs
