

**Equipment to keep your food
production moving forward**

Food Grade Product Solutions

Stainless Storage

Whether your operation needs freestanding or mobile cabinets, we have the storage solutions your facility requires. We know meeting the industry standards for cleanliness and construction is key, and all of our stainless products meet those specific conditions.

Plastic Chain Conveyor

Engineered for food production, Spantech Conveyors offer a versatile and efficient means of moving your product. The one-chain design offers limitless possibilities for configuration to fit your operations.

Stainless Lifters

Our stainless trucks and lifts allow for transportation into sensitive environments without sacrificing ergonomics or safety. Wash-down capable, they also offer corrosion resistance for tough and durable dependability in any facility.
