# A Pallet for Every Purpose

**DECADE** PRODUCTS®

Superior material handling products to increase your efficiency and profitability

## Meet virtually all of your material handling requirements…

Decade Products manufactures plastic pallets for industrial, agricultural and food processing applications worldwide. Engineered of high-density polyethylene (HDPE), Decade pallets are strong yet lightweight, corrosion resistant and durable. Because they are completely reusable and virtually maintenance-free, Decade pallets are more cost-effective and user-friendly than pallets manufactured from cardboard, wood and metal.

From heavy-duty pallets for industrial use, to FDA-approved pallets for food applications, to "one-way" pallets for export use, you will discover that our products offer a unique level of performance, quality and cost-effective advantages unlike any other pallets.

## Environmentally friendly, yet cost-effective

Today, major industries worldwide are recognizing the growing importance of sustainable development and the requirement to meet the needs of the present without compromising the ability of future generations to meet their own needs. This concept goes well beyond traditional conservation programs of the past to include detailed assessments of the impact a company's products have on the environment, plus the impact products make throughout the various stages of their life cycles.

Our long and deep commitment to sustainable development is evidenced by the fact that Decade pallets are made of virgin HDPE and recycled plastics, and truly represent an environmentally-friendly approach to the fabrication of high strength injection molded products. Under our unique "buy-back" program, pallets that are no longer serviceable can be absorbed into our recycling system, with a portion of the original cost credited toward the purchase of new pallets. This not only helps the environment, it can lower initial purchase costs.

**New RACX™ pallet combines strength and economy in a lightweight, one-piece design.**

## Rackable Pallets

Decade's rackable pallets feature a picture frame bottom with runners on all four sides for stability, making them ideal for use in warehouse racking systems. They are engineered so that the bottom pallet can handle the full static load when loaded pallets are stacked 2 or more high, and offer unsupported rack capacities up to 2,800 lbs.

Rackable pallets are widely used in stack loading, closed loop transport, floor storage and automated material handling equipment throughout many warehousing, general material handling, distribution center, and returnable shipping applications. Available in a variety of sizes, including 40 x 32, 37 x 37, 44 x 48 and 48 x 40 inches, these pallets may be fitted with optional rubber grommets or lips on the pallet top to keep contents from slipping. In addition, they are available with reinforced rods allowing static load capacity from 20,000 lbs. to 50,000 lbs. and dynamic load capacity from 5,000 lbs. to 7,000 lbs.

**Optional reinforcing rods allow Decade pallets to handle static loads up to 50,000 lbs.**

# Nestable Pallets

These economical "one way" export pallets meet EU, Canadian and Asian customs requirements. Fully recyclable HDPE plastic, they are easy to clean and do not require fumigation as in the case of wood pallets. They will not increase in weight, harbor pests or sustain water damage, eliminating the expensive risks of refused entry or lengthy customs delays. Fully nestable for space savings, 4-way entry design. Ventilated deck provides excellent air circulation.

# Smooth Pallets

Our smooth pallets feature a solid flat top, smooth surfaces for easy cleaning, plus extreme temperature and UV degradation resistance. Materials are USDA approved for food processing applications. Engineered for dynamic load ratings from 4,000 to 5,000 lbs. and static load ratings from 13,200 to 25,000 lbs. Four-way forklift entry. Available in gray, green, blue and yellow in standard 48 x 40 and 48 x 32 inch footprints.

# An Overview of the Decade Pallet Line

| Part Number | Description | Dimensions (inches) | Height (inches) | Weight (lbs.) | Truckload Quantity | Dynamic Load (lbs.) | Static Load (lbs.) | Racking Load (lbs.) |
|---|---|---|---|---|---|---|---|---|
| **RACKABLE** | | | | | | | | |
| DP4840 | RACX™ Picture Frame | 48x40 | 6.1 | 34 lb. | 540 | 5,000 | 25,000 | 2,200 |
| GS4840000 | Heavy-Duty Picture Frame (No Rods) | 48x40 | 5.9 | 53 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS4840001 | Heavy-Duty Picture Frame 1-Rod | 48x40 | 5.9 | 55 lb. | 540 | 5,000 | 25,000 | 2,000 |
| GS4840003 | Heavy-Duty Picture Frame 3-Rod | 48x40 | 5.9 | 57 lb. | 540 | 5,000 | 30,000 | 2,800 |
| GS4840005 | Heavy-Duty Picture Frame 5-Rod | 48x40 | 5.9 | 59 lb. | 540 | 7,000 | 50,000 | 2,800 |
| GS40483R0 | Heavy-Duty 3-Runner (40″) No Rods | 48x40 | 5.9 | 53 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS40483R3 | Heavy-Duty 3-Runner (40″) 3-Rod | 48x40 | 5.9 | 53 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS48403R0 | Heavy-Duty 3-Runner (48″) No Rods | 48x40 | 5.9 | 53 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS48403R3 | Heavy-Duty 3-Runner (48″) 3-Rod | 48x40 | 5.9 | 53 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS40323R3 | Heavy-Duty 3-Runner (32″) 3-Rod | 40x32 | 5.5 | 45 lb. | 810 | 5,000 | 25,000 | 2,500 |
| GS3737000 | Heavy-Duty Picture Frame (No Rods) | 37x37 | 5.5 | 47 lb. | 750 | 5,000 | 25,000 | 2,000 |
| GS3737004 | Heavy-Duty Picture Frame 4-Rod | 37x37 | 5.5 | 50 lb. | 750 | 5,000 | 25,000 | 2,500 |
| GS4448000 | Heavy-Duty Picture Frame (No Rods) | 44x48 | 5.8 | 65 lb. | 540 | 5,000 | 20,000 | 1,500 |
| GS4448003 | Heavy-Duty Picture Frame 3-Rod | 44x48 | 5.8 | 69 lb. | 540 | 5,000 | 30,000 | 2,800 |
| **NESTABLE** | | | | | | | | |
| GS4840NEST | Nestable One Way | 48x40 | 5.5 | 17 lb. | 1500 | 2,000 | 5,000 | - |
| CPP330ACM | 330 Nestable Export | 48x40 | 5.5 | 23 lb. | 1500 | 2,200 | 5,000 | - |

# Value-added Features and Options

**Guaranteed Buy-Back Program**— Because our pallets are made of 100% recyclable material, we will buy back and recycle your non-serviceable pallets in truckload quantities. It's an environmentally-friendly program that also lowers your initial purchase cost.

**Choice of Colors**— Select from an array of custom colors.

**Branding and Hot Stamping**— Customized identification options available.

**RFID Capability**— Embedded chip helps locate and identify pallet and contents.

**Logistics Support**— Decade can help you manage the pallets used in your deadhead shipments.

**Leasing/Finance Options**— Convenient payment and leasing plans available.

**Consultation**— Application surveys and technical advice are available upon request.

# Don't forget our line of bulk containers for handling your shipping and storage needs

## MACX® Shipping and Storage Containers

Take your material handling operations to the maximum level of efficiency with MACX containers.

- Tough yet lightweight— fabricated from HDPE
- Stackable— patented interlocking corners allow safe stacking up to 10 high
- Compact storage— nest three containers to save space
- Versatile runner design— available with short side or long side replaceable runners

## KitBin® Shipping and Storage Containers

Rigorous performance in a modular design.  All panels detach from the pallet, providing a number of competitive advantages:

- Return 300 empty containers per truck—highest return ratio in the industry
    - Interchangeable panels can be replaced one-at-a-time to cut replacement and inventory costs
    - Removable walls provide easy access for loading and unloading
