

# LOSS PREVENTION PALLET RACK SYSTEM

SPECIFICATIONS

## Secure existing pallet and bulk racks quickly, easily.

Loss Prevention Pallet Rack System is designed to secure an existing pallet rack or bulk rack. The all-steel enclosure system surrounds the rack and prevents unauthorized access and protects employees and customers from dangerous spills. One or more pallet levels can be secured with others left open. Open mesh design allows for quick visual inspection and will not deter sprinkler systems.

**Panels** 8-gauge galvanized welded wire grid with 1-1/2" x 3" openings. Side panels mount inside pallet frame assembly and do not interfere with horizontal pallet beams.

**Door** Industrial grade bi-parting sliding doors feature padlock hasp. Sliding door projects approximately 5" from face of rack; other widths available.

**Offset Posts** Panels mount with a 4" offset from face of pallet.

**Finish** Galvanized.

**Installation** Pre-punched components mount directly to pallet rack for easy assembly.

**Custom Sizes** Loss Prevention Pallet Rack components can be made to your specifications.

**Architectural** Furnish Loss Prevention Pallet Rack manufactured by Folding Guard Corporation, 5858 West 73rd Street, Bedford Park, IL 60638.

### Sliding Door Assembly

Part No.	W x H	Weight (lbs.)
LPR-SP-808	96" x 90"	281
LPR-SP-810	96" x 114"	319
LPR-SP-812	96" x 138"	375
LPR-SP-1008	120" x 90"	304
LPR-SP-1010	120" x 114"	387
LPR-SP-1012	120" x 138"	492

### Side Panel Assembly D x H

LPR-EP-3608	30" x 94"	19
LPR-EP-4208	36" x 94"	22
