

Rollback Safety Gate

RollBack Safety Gate

A free standing version of our popular Rollback Bay gate to protect workers on elevated access points for material transfer. Easy-to-use and install. Protects without hindering productivity. Two-gate system means one gate is always closed and OSHA compliant fall protection is in place.

- Prevents falls from elevated access loading points while transferring material loads.
- Heavy duty chains and roller tracks ensure long life and smooth operation.
- Counteracting gates create a safe zone for loading/unloading areas
- When inboard gate is opened, leading edge gate automatically closes.
- Adjustable rails to accommodate unforeseen job site conditions.
- Models available to accommodate single or multiple pallet loading.

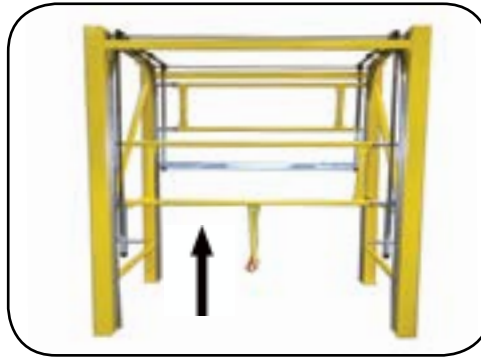

ROLLBACK SAFETY GATE FEATURES

OPERATION IS AS EASY AS 1-2-3

1. Gate closed on inboard side. Gate open on leading edge side. Place pallet into receiving area.

2. As inboard gate is opened, leading edge gate automatically closes.

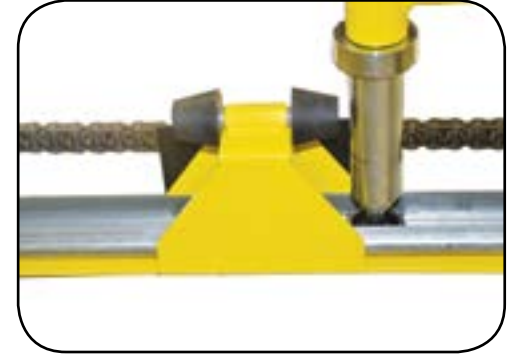

3. As inboard gate fully opens, leading edge gate is fully closed maintaining fall compliance.

Zinc plated tracks and hardware

Integrated toe-board on leading edge gate.

HD rubber gate stops.
