

## **Manual and Self-Closing Swing Gates**

### **Manual-Closing Swing Gates**

Protect loading docks, stairways and elevated loading points with a Swing Gate kit that allows tool free installation in minutes. Protect openings from 4 ft. to 12ft. Easy latching mechanism keeps gate closed.

- Protects workers from stairway, ladder; and elevated platform falls.
- Meets OSHA 1910.23(a)(2)
- Protects openings from 4 feet to 12 feet in width
- Kit consists of gate section, easy rolling wheel, lock post, hinge post, and latch.
- Integrates with RailGuard system.
- Gate can be set to swing left or right.

### **Self-Closing Swing Gates**

For areas that require access but should be normally closed, use of a Self-Closing Gate is recommended. Three adjustable models depending on your opening size. Custom sizes, colors and galvanized options make the Garlock Self-Closing Gate the solution.

- Protects workers from stairway and ladder falls
- Meets OSHA 1910.23(a)(2)
- Two-piece gate for adjustability to fit varying widths.
- 3 adjustable sizes: 16 to 24 inches, 24 to 38 inches, and 48 to 60 inches.
- Spring-loaded hinge provides self-closing feature.
- Universal mount to fit flat or round post or rail.
