Weld/Privacy Screens

Product Advantages

- Strong-Tough-Durable.
- 1-3/16" Extruded aluminum frame.
- Gusseted corners.
- 14 mil thick "Weldview" tinted material.
- Protects against the effects of the near ultraviolet and ultraviolet rays emitted during welding operations. (**Caution!** Eye protection should be worn for direct viewing of the welding arc even when this material is in use).
- Meets CPAI-84 and California Health and Safety Code requirements of the State Fire Marshal code for flame resistance.
- Light transmission from 15 to 90 percent depending on color: Dark Green, Charcoal Gray, Blue, Aztec Red, and Yellow.
- Weld spatter resistant.
- Privacy screens use 14oz. NFPA-701 vinyl coated polyester fabric.
- Opaque vinyl is available in Blue, White, Green, Yellow, Red, Gray, Purple, Maroon, Beige, Black, Orange, and Teal.
- Brass grommets on 1 ft. centers.
- Frame models require an Allen wrench for assembly.
- Easily movable.

Options Available

- 19 standard sizes up to 8 ft. wide and 8 ft. high mounted on a rigid aluminum frame for portability.
- Screens are modular for easy set up and reconfiguration.
- Rolling casters are available.
- Hinges to join panels together.

Product Benefits

- Protect personnel from harmful near UV and UV rays.
- Create a barrier for weld smoke and fume removal.
- Ideal for temporary protection in areas bordering aisles or welding areas.
