Bug Blocking Mesh Screen Doors (Motorized and Spring Assisted)

Product Advantages

- Heavy 11oz. pre-coated woven vinyl coated mesh polyester screen.
- Resistant to all ultraviolet rays and is rot, tear and mildew resistant.
- 17 X 11 polyester scrim provides small openings difficult for insects to penetrate.
- Shade screen factor improvement to 65% helps to keep non air conditioned plant space cooler longer.
- The 110 Volt motor is mounted in the roll up tube. This allows for a much cleaner look with no exposed conduit or motor. (Motorized Model ~ 6" and 12" per second)
- External Mounted Motor used for 36" per second.
- In tube spring assembly has multiple Start-Stop positions and has adjustable torque settings. (Spring Assist Model)
- Valance panel is made from 18oz. coated vinyl, which helps to keep debris out while protecting the roller tube.
- The valance mounts to the building rather than to the curtain track, improving stability and a more rigid mount.
- Double baffle, under valance, prevents pests from entering.
- Fiberglass pultrusion tubes (horizontal stiffeners) bend if loaded-won't break or kink.
- Custom extruded track with reinforced section traps the rollers in the cavity to prevent rollers from being knocked out of alignment.
- Side seals constructed out of EPDM prevent pest intrusion.
- Wind will not blow it out of track.

Options Available

- Five colors Options: Gray, Almond, Royal Blue, Spruce Green, Yellow, Red and Black.
- NEMA 1 and 4 hardwired or wireless controls
- Motor Control Speeds: 6", 12" and 36" per second.
- Ability to mount the door Under Header, Outside Face Mount or Inside Projection

Product Benefits

- 65% Shade factor-helps keep the facility cooler longer.
- Significantly reduces heat from sun while allowing light into work areas.
- Allows fresh air to flow through for comfort and productivity.
- Keeps out unwanted pests, birds and intruders.
- Improves security.
- Three year warranty – One year warranty on drive mechanism.
- Improves building appearance.
- Standard sizes fit most door openings.
- Helps meet FDA Requirements
- Increases security-Deters trespassing, theft and vandalism.
