

FACE MOUNT RH EXTERNAL MOTOR WITH RAINCOVER

Note: The lower horizontal pocket of Goff's "Gravity Feed" door is designed to hang below the upper doorframe by 3" when the door is in the "Up" position. If this is not acceptable, please order your door 3" higher than the actual doorframe. The "DRAWTITE" door's lower pocket is designed to hang below the upper doorframe by 6" when the door is in the "Up" position. If this is not acceptable, please order your door 6" higher than the actual doorframe.
