

GOAL POST DOOR GUARD

Cold Storage
Facilities

Warehouses

You can install the **GOAL POST DOOR GUARD** in two different ways:

1. Cored
2. Plate & Cored

1) Core a 10-12" diameter hole in the ground (we recommend a minimum depth of 24"). Place a 7" round steel floor sleeve into the cored hole and fill around the steel floor sleeve with cement. Insert the **GOAL POST DOOR GUARD** into the steel floor sleeve after the cement sets. This will make for stronger protection, as well as making the **GOAL POST DOOR GUARD** removable.

2) Core drill 7" hole, insert steel sleeve. Drop the **GOAL POST DOOR GUARD** into the cored hole. Install 3/4" x 6 1/4" anchor bolts (minimum size) into the base plate.

Installation

18" Cored in Depth,
Cement 7" steel floor
sleeve

Insert **GOAL POST
DOOR GUARD**
into the steel floor sleeve.

Sturdy Protection!
