

FREEZER

HAND PALLET TRUCK

DOESN'T RUN FROM HARSH WEATHER.

Extreme environments demand extreme solutions. No other materials handling company understands this better than Lift-Rite.

The Freezer (FR) pallet truck's exterior product treatment provides resistance to corrosion due to condensation associated with freezer and refrigeration applications, making it immune to the cold.

DURABILITY

Harsh environments won't stop the Freezer (FR) from getting work done. It's resistant to corrosion caused by condensation through various material and surface treatments. The hot dip galvanized fork frame provides resistance to abrasion and premature surface treatment wear.

MAINTAINABILITY

With solid nylon wheels and rollers to prevent premature failure associated with bonded wheels in cold temperatures, the Freezer (FR) keeps you moving. The galvanized freezer unit is rated to -20°F (-30°C).

SPECIFICATIONS:

FR11LSA1-000

- » Capacity: 5,500 lbs
- » Fork Length: 48 inches
- » Frame Width: 27.00 inches
- » Fork Width: 7.00 inches
- » Low Height: 3.00 inches
- » Raised Height: 7.75 inches
- » Wheel Diameter: 7.00 inches
- » Wheel Type: White Nylon
- » Roller Diameter: 3.00 inches
- » Roller Type: White Nylon
- » Weight: 177 lbs

Non-marking white nylon wheels and rollers

Electro-galvanized pump handle

Chromated pump pistons and low temperature hydraulic oil

Hot dip galvanized fork frame
