cmepanv1

EPA office uses workbenches to maintain and calibrate field instruments.

cmepanv2

Fixed workbenches are arranged in U-shaped "cells" with instrument riser shelves.

cmepanv3

Mobile workbench consists of SC cabinets with butcher block top and instrument risers for mobile electrical access.

cmepanv4

Stacked cabinets with sliding door shelf cabs on top and hinged door cab with drawers (bottom is a 350) and roll-out trays.

Storage Walls (all shelves) store heavy test equipment.

cmepanv6

cmepanv5

MP300 workbench drawers with full sidewalls.
