Mohegan Sun redid a main floor cash cage, replacing old particle board cabinetry with Lista cabinets with drawers, door compartments and roll-out trays. In the chip storage area (below), chips are stored in sliding door shelf cabinets with plexiglas doors.

In the slot machine repair area, Lista benches are used to repair machines, with plenty of drawer storage in the cabinets pedestals. The area also features overhead cabinets, mobile cabinets, door cabs with roll-out trays, and drawer cabinets for storage of components.
