

Lista Workspace Solutions

*Maintenance and
Repair Solutions*

Lista workspace systems help keep maintenance and repair operations performing at peak efficiency. With our comprehensive range of workspace solutions, Lista can completely and specifically address the unique needs of your facility.

Lista: Making Maintenance and Repair Facilities More Productive.

The unique Lista drawer is the all-important centerpiece of every cabinet and workspace system. It can be subdivided to create custom compartments for the ideal organization of tools, parts and other items of varying size.

Lista storage workspace solutions are ideally suited to address the problems specific to maintenance and repair departments. To help you meet your day-to-day needs and reach your long-range business goals, Lista solutions:

- ▶ ***promote faster access and efficient service***
- ▶ ***maximize available space***
- ▶ ***improve inventory management and organization***
- ▶ ***create an aesthetically pleasing, professional image***
- ▶ ***enhance employee productivity***

An issue counter comprised of counter height Lista cabinets can bring optimal accessibility and space efficiency to a parts storage area. Modular cabinets provide clean, safe storage for a diverse array of fast-moving parts, such as nuts, bolts and drill bits, and allow easy and fast retrieval of these items.

Lista Issues a Cure for Inventory Headaches At Mary Hitchcock Hospital.

“ The difference in locating parts now as opposed to locating them before the Lista system was in place is like night and day. Not only has it increased our overall productivity, it has even enhanced morale. People no longer have to search for an excuse to avoid the storeroom. ”

Phyllis Morse
Engineering
Department Office
Manager,
Mary Hitchcock
Hospital

Founded in 1893, Mary Hitchcock Memorial Hospital has developed a well-deserved reputation as one of New Hampshire's premier medical institutions. In the storeroom of the hospital's Engineering Services Department, a horseshoe-shaped issue counter uses Lista modular cabinets to full advantage. Each cabinet drawer features custom compartments and is labeled with a description of drawer contents, so locating parts is a fast and easy process.

Lista modular cabinets feature full extension drawers that can easily be subdivided into customized storage compartments for maximum organization and efficiency. By stacking these cabinets, you can create a mezzanine system that is extremely economical and space-efficient, and provides the highest density vertical storage.

The Benefits of Lista Cabinets are Stacking Up At Gulf States Paper Corp.

The mezzanine system Lista created for Gulf States Paper Corporation's Pulp and Paperboard Division serves as an excellent example of maximized space. Gulf States is a manufacturer of bleached paperboard that is delivered to end users in a wide variety of industries. Of the 260 standard width cabinets that Gulf States purchased from Lista, 128 were used to create two 1,200 sq. ft. mezzanines which are located in the facility's central storage area. The mezzanines are a cost-effective alternative to building an additional floor. They have allowed Gulf States to increase storage space, and make maximum use of available floor workspace.

“ Everyone who uses the system loves it, from the store clerks, who are responsible for receiving items, to the issue clerks, who fill the requests for tools or parts for the maintenance personnel. They know exactly how many parts are in a particular drawer and exactly where the parts are located. The Lista system has made everyone's life easier. ”

John Harris
Supervisor of Stores,
Gulf States Paper

Lista's mobile cabinets take all the flexible, highly organized storage of our modular drawer storage cabinets, and add unmatched convenience. With our mobile cabinets, large volumes of tools and parts can be rolled out directly to the job where they can be readily accessible to maintenance and repair personnel. This naturally translates to both remarkable time savings and increased productivity.

Lista Mobile Cabinets Set Productivity In Motion At The New York Daily News.

“ Our employees are quite pleased with the Lista system, not only from an organizational point of view, but aesthetically as well. It has helped them become more productive and has improved the overall working atmosphere. ”

Vinnie Grosso
Production
Maintenance Manager,
New York Daily News

At the New York Daily News, one of the nation's 10 largest newspapers, Lista's mobile cabinets keep the presses rolling by delivering tools directly to the printing presses. Repairs are effected more quickly and downtime is greatly reduced. Along with mobile cabinets, the Daily News also utilizes a combination of Lista Storage Wall® systems, workbenches and modular drawer storage cabinets.

Lista's modular building block approach makes the Storage Wall® a uniquely flexible and versatile storage solution. The Storage Wall can combine shelves, drawers and roll-out trays to provide custom solutions that exactly match the size of the items you need to store. In fact, even the biggest and smallest of items can be stored together in a logical and accessible manner.

Efficient Lista Storage Mezzanine Energizes Calpine Power Plant.

“ Lista’s well-built products were better than the rest. They had the quality, versatility and the lifetime warranty we were looking for. Lista’s products will be with us for a long time. ”

Rodney Looney
Director of
Purchasing and
Warehousing,
Morgan Energy
Center

The world’s largest supplier of renewable geothermal energy, Calpine Corporation needed space-efficient storage for its new Morgan Energy Center. The solution was a custom storage and mezzanine system comprised of a lower level of eight Lista Storage Wall sections and a second level “attic.” Each of the Storage Wall system’s custom-configured drawer interiors is home to 20 different-sized parts, including a range of turbine parts as well as a variety of nuts and bolts. This organization-enhancing mezzanine system has allowed Morgan to streamline its inventory process and greatly improve security and efficiency.

At Lista, our modular approach lets us create workbenches that exactly suit your needs. Below the worksurface, you can choose from a wide array of cabinet footprints and heights, add roll-out trays or sliding doors with shelves, or add casters for the convenience of mobility. You can also build up from the worksurface, choosing from a variety workbench tops and accessories.

Lista Benches Quench Thirst For Greater Efficiency At Pepsi Cola.

The maintenance and repair facility at Pepsi Cola Corp. in Roanoke, VA utilizes a workspace system that combines Lista workbenches with Lista Storage Wall® systems. The workbench cabinet drawers bring new organization to the storage of small components such as fuses, circuit breakers and bearings – components common to the different automated bottling and beverage manufacturing machines at the plant.

“By replacing our old open shelving system with Lista workspace solutions, we’ve made our entire maintenance operation much more organized and efficient. Keeping track of inventory is an easier proposition. Plus our maintenance facility has a clean, aesthetically pleasing look that can only help to enhance our company’s image.”

Vince Mercer
Maintenance
Manager,
Pepsi Cola Corp.
