Lista Workspace Solutions

LISTA
MAKING WORKSPACE WORK®

Lista Keeps Your Laboratory At Peak Efficiency

From R&D to testing, in wet and dry labs, Lista workspace systems bring maximum efficiency and organization to your operation. With our comprehensive range of workspace solutions, and our modular building block approach, Lista can address the unique needs of your facility – whether you require productivity enhancing workbenches, high density modular drawer storage cabinets, or convenient storage in overhead cabinets. With our custom design capabilities, Lista can produce workstations that exactly match a lab's unique application requirements, as well as a company's aesthetic needs.

No Matter What Your Facility's Size or Shape, Lista Has the Perfect Solution

If your laboratory wants to operate at peak efficiency, you need to be sure your workspace works for you. Lista's wide range of modular storage and workspace solutions:

- Enhance productivity.
- Protect expensive instruments, tools, parts, and components.
- Are ergonomically designed to reduce stress and strain.
- Maximize available space.
- Provide more clean, organized and secure storage.
- Complement the aesthetic characteristics of your facility.

Free Custom Design from Lista

When it comes to custom design, Lista's engineering and design team is ready to provide you with a detailed plan for your individual workspace and storage needs, free of charge. Unlike standard casework with a limited number of configurations, Lista's modular design allows us to tailor each solution to your precise needs for efficiency and future flexibility. We provide systematic solutions for a whole range of needs, from the storage of small items, to complete, space-efficient, productive work environments. With Lista you will work better, faster and smarter because you are more organized.
