# Listra Storage Walls – flexibility, versatility, durability

## **The Storage Wall has it all.**

Listra's modular building block approach makes the Storage Wall a uniquely flexible and versatile storage solution. Custom designed and arranged for your individual needs, but without the custom cost, no single storage system can match the Storage Wall.

The Storage Wall's extraordinary combination of components offers the ultimate in organization and space utilization. It features:

- An enormous variety of drawers to store small parts and components

**The Storage Wall is available with a great variety of drawers for storage of small parts and components. The Lista drawer is the centerpiece of our modular building block approach. Each drawer has partitioning slots on all four sides, and can be subdivided with a wide variety of drawer accessories to create custom compartments.**

- Roll-out trays for easy access to large, heavy items
- Shelves to handle larger items
- Beams for hand-loading of long or bulky items
- Selection of door types for additional security and finished appearance

## **A cost-effective solution.**

The combination of these modular components means you can store small and large parts together and have easy access to both.

It also means your Lista Storage Wall can easily accommodate changes and additions and never be outdated — a cost-effective solution for now and in the future.

## **Capacity.**

In addition to full use of available ceiling height, the Lista Storage Wall gives you maximum weight and cubic volume capacity. The all-steel construction makes it ideal for supporting a mezzanine.

## **Flexibility for growth and change.**

The Storage Wall's extraordinary flexibility means you get the exact solution that your workspace and storage needs demand, even as your needs change. All Storage Walls come in build-as-you-go units. Each section consists of a pair of matched height vertical side frames joined with appropriate top and bottom universal panels. Additional sections can be added to your Storage Wall at any time, and drawers, roll-out trays, and shelves can be easily reconfigured in any desired sequence. All basic Storage Wall components and accessories can be ordered separately to accommodate your needs.

*Storage Walls come in six standard heights up to 118 1/8" and two standard depths. They can be arranged as multi-story installations with mezzanines, allowing use of storage space by using available height.*

*Drawers ride smoothly to full extension on precision ball bearing suspensions, allowing full use of all drawer space and easy access to the farthest corners.*

*With Lista's flexible modular approach, drawers, roll-out trays and adjustable shelves can be combined in any sequence in any section and easily rearranged.*

*Track-guided safety ladders permit easy and safe access to upper levels, and fold flat when not in use so aisle is never blocked.*

# full depth Storage Walls

Particularly well-suited for warehousing and industrial environments, Lista's full depth Storage Wall is the ideal solution for easily accessible storage of a variety of small, medium and large items. Ergonomically designed, the Storage Wall greatly reduces stress, strain and risk of injury.

*"With the Storage Wall, the guess work in locating materials has been eliminated. The Storage Wall's roll-out trays accommodate our storeroom's heaviest and bulkiest items and allow us easy access to a large number of parts like heavy pipe fittings and valves."*

Sara Rosplock  
Corning, Inc.

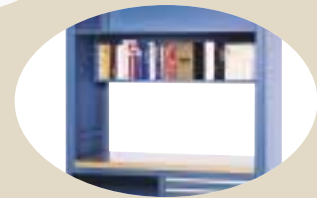

*Even when fully loaded to their 440 lb. capacity with heavy artifacts, the roll-out trays in the Schenectady Museum's Storage Walls roll smoothly to full extension, giving curators easy access to the farthest corner.*

*Lista drawers and roll-out trays (including the 770-lb. capacity heavy duty roll-out tray) provide*

*organized, easy-to-reach storage for items of diverse size and shape.*

*Storage Wall accessories such as bookshelves, folding ladders and wide span beams allow customization to meet your unique requirements.*

# shallow depth Storage Walls

The shallow depth Storage Wall's shallow footprint is ideal for use where aisle and floor space is critical and vertical space can be utilized. An ideal, more efficient alternative to industrial shelving, the system's many appropriate applications include auto dealerships and small storage rooms.

*"It is so much easier to find items you're looking for because they're right at your fingertips. When we had the shelf system, I had to get on my hands and knees and pull out all of the items in the front of the shelf to find the item I needed in the back. . . . I love this Storage Wall system."*

*Helene Waddell  
Champion Spark Plug*

*The shallow depth Storage Wall is the ideal retrofit for shelving. At Harbour Co-Generation's maintenance area, the system's shallow depth allows for easy access and freedom of movement, despite the area's narrow aisles.*

## building the perfect Storage Wall

*Lista offers a variety of Storage Wall doors, including sliding doors, hinged doors and vertical tambour doors.*

# Lista – making workspace work

## **The NC Storage Wall.**

*With its tremendous weight bearing capacity, the Lista Storage Wall is an ideal storage solution for NC tools. Storage Wall drawers can be outfitted with tool holder frames and tool holders for a variety of standard sizes of NC tools. Drawers can be accessorized with partitions and dividers to protect and organize measuring and cutting tools, collets, vises and other accessories.*

## **Free design services.**

*Lista's engineering and design team is ready to provide you with a detailed plan for your individual workspace and storage needs.*

*Lista offers detailed solutions designed for efficiency and future flexibility. We provide systematic solutions for a whole range of needs, from the storage of small tools to complete space-efficient, productive work environments. Our years of experience in a wide variety of companies will prove profitable to you.*

## **Lista lifetime warranty.**

*Lista's confidence in the quality and durability of our materials and workmanship allows us to offer a lifetime warranty on materials and workmanship. Please ask your Lista representative for a full warranty statement and details.*
