

# High-5 Fan Series

## High Volume Ceiling Fan

Patterson has elevated the High Volume ceiling fan to All New Heights! With over 23 years of fan engineering and air-movement expertise, Patterson has taken High Volume ceiling fans into the “User Friendly” realm with:

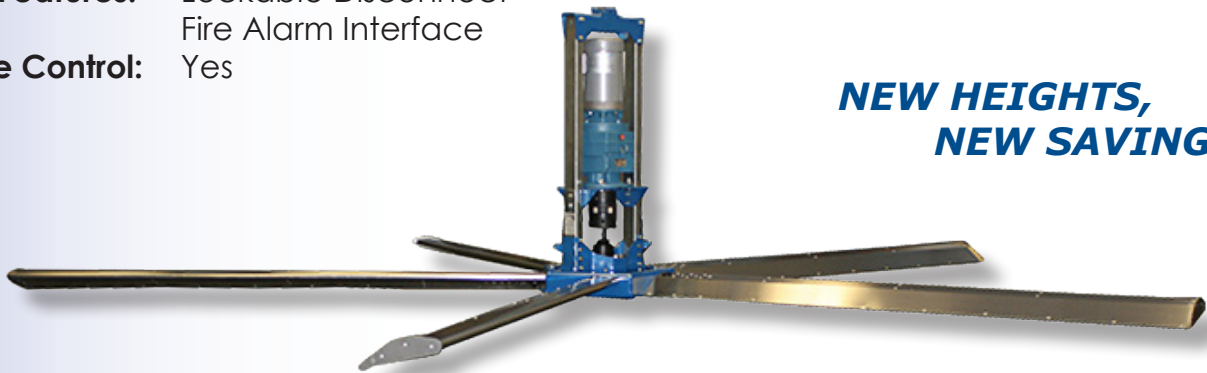

- Blade/Gearbox Modularization takes all the axial (downward) stress off the drivetrain and gearbox.
- Unique Blade/Hub/Tie Safety System
- All components are Modular. If service is ever required, it can easily be performed at the mounted fan. No time or money wasted for fan removal and reinstallation.

## HIGH-5 FAN PERFORMANCE

SIZE	CFM	HP	MAX SPEED	HANGING WEIGHT	MAX EFFECTIVE AREA	INDUSTRIAL SPACING
18'	201,870	1HP	55 RPM	405 lbs/ 184 kg	15,000 ft <sup>2</sup> / 1,394m <sup>2</sup>	90 ft/ 27.4 m
20'	222,013	1HP	55 RPM	420 lbs/ 191 kg	15,000 ft <sup>2</sup> / 1,394m <sup>2</sup>	95 ft/ 29 m
24'	384,000	2HP	48 RPM	440 lbs/ 220 kg	20,000 ft <sup>2</sup> / 1,858m <sup>2</sup>	100 ft/ 30.5 m

### ALL FAN SIZES INCLUDE:

- Gearbox Type:** 2-Stage Helical  
**Safety Features:** Lockable Disconnect  
Fire Alarm Interface  
**Remote Control:** Yes
