WIRE SHELVING

Design: The open wire design of these shelves minimizes dust accumulation and allows free circulation of air, greater visibility of stored items and greater light penetration.

Construction: All welded wire shelves and posts are constructed of heavy-gauge carbon steel or Type 304 stainless steel.

Choice of Finishes:

- **Proform** - *is an economical solution for high humidity or wet applications. The carbon steel is treated with an zinc phosphate base. A hybrid epoxy with an antibacterial agent is electrostatically applied over the treated surface. 15 year limited warranty for antimicrobial finish to not rust or corrode.* **Color:** *Light Green*

- **Chrome** - *is a plating process which deposits hard chrome over a cooper, nickel surface. This process is very durable and is used in an up-front storage or material handling application in any dry storage environment. 1 year limited warranty to not rust or corrode when used in dry and non-humid environments.*

- **Black** - *Treated with an iron phosphate and the powder coated black epoxy is electrostatically applied, baked and cured to a hard surface. 10 year limited warranty for finish to not rust or corrode.*

- **Stainless Steel** - *304 Stainless with an electropolish finish represents the highest industry standard in the prevention of corrosion. This finish is highly effective for corrosive, high humidity or clean room environments. Lifetime warranty for 304 stainless steel electropolish finish.*

Adaptable: Wire shelving can adapt to your changing needs. By using various accessories, hundreds of shelving configurations become possible.

Quick, Easy Assembly: Posts have a double groove visual guide feature every 8", circular grooves at 1" increments, and are numbered at 1" intervals. Tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Shelf is assembled in minutes without the use of any special tools.

Adjustable: Shelves can be adjusted at 1" intervals along length of the post.

**Wire Trusses:** Architectural wire trusses increase shelf capacity.

Top Mat Wires: Run front to back to slide items easily off and on the shelf.

Shelf Accessibility: Shelves can be loaded/unloaded easily from all sides This open construction allows maximum use of storage cube.

Adjustable Foot: 3/8-16 leveling bolt compensate for irregular floor surfaces.

Note: Stainless stationary posts are equipped with stainless steel leveling feet.

WIRE SHELVES

- **Plastic Split Sleeves** - *are included with each shelf*
  Replacements are available:
  Model No: **WR-SS** *(4 Pairs)*

- **Plastic Conductive Split Sleeves** - *are available for conductive applications*
  Model No: **WR-SSCO** *(4 Pairs)*

- **Aluminum Split Sleeves** - *are recommended for extreme mobile applications and conductive applications*
  Model No: **ESD-SS** *(4 Pairs)*

- *Load capacity* **(evenly distributed)** *per shelf*

  Depths: 14" to 36"
  800 lbs. for lengths of 18" to 48"
  600 lbs. for lengths of 54" or longer
- *All welded construction with additional wire trussing for high strength characteristics*

- *Top mat wires run front to back* **(except on 12" x 36" size)** *for ease of loading and unloading*

- *Wire allows air to circulate and light to penetrate for increased product visibility*

- *Numbered grooved posts on 1 inch increments for quick assembly*

- *Minimal dirt accumulation*

- *Adjustable foot levelers*

- *No tools required for assembly*

- *Durable finishes*

- *Aesthetically pleasing*

- *National Sanitation Foundation* **(NSF)** *Approved*

- *Shipped KD Class 70*

* Special order. Minimum quantity and extended lead time may apply. Please call for details.

*"Quantum Storage has the largest selection of plastic bins, steel & wire shelving and storage containers."*

POSTS

All posts are fabricated from 16 gauge carbon steel with locating grooves on 1" increments and printed numbers between the grooves. Post also have doubled grooves every 8" for fast identification. Leveling legs are enclosed with all posts. Leveling legs cannot be used in conjunction with stem casters. Custom post heights are available.

Stationary posts are equipped with:

▪ ***Post Leveler Insert & Leveling bolt*** *- use to account for uneven floors, it adjusts up or down allowing height flexibility*
Replacements are available:
Insert
Model No: **W-PLI**
Leveling Bolt
Model No: **W-PLB**

▪ ***Foot Plates*** *- triangular plate allows additional surface to disperse weight. It may be ordered separately and installed in place of leveling foot*
Model No: **FP**

▪ ***Floor Guides*** *- Serves as protection to prevent marring of floors*
Model No: **FG** *(Pack of 4)*

▪ ***Fully Threaded Stud Connector*** *- can be utilized to connect two posts enabling any post height to be achieved*
Model No: **W-PC-STUD**

▪ ***Post Cap*** *- Plastic caps are included with each post*
Replacements are available:
Model No.   **W-PC** *(Pack of 4)*

▪ ***Shelf Collar Plug*** *- Shelf Collar Plug covers shelf collar when post is not being used*
Model No: **WR-SP** *(Pack of 4)*

▪ ***S-Hook*** *- For continuous runs of shelving. Two hooks should be placed per shelf where two posts are not utilized.*
Model No: **S-HOOK** *(Pack of 8)*

Finishes: Chrome, Proform, Stainless Steel and Black
