

BUILDING GREEN WITH...

GREEN InsulWall®

GREEN InsulWall made from recycled insulation combines superior thermal performance, durability and modularity.

GREEN Benefits:

- Easier on the environment
- Reduced carbon footprint—4x lower than virgin fiber
- Optimal thermal performance

GREEN Details:

- Recycled insulation
- Exterior ASTM E84 Class A, Fire Rated
- Modular and moveable

Third-Party Recognition:

- Contributes to LEED® score

GREEN InsulWall effectively divides temperature and space with the added value of GREEN properties. Learn how the attributes of GREEN InsulWall can contribute to your project's LEED score.
