

MEGA GUARD

All Welded Machinery & Rack Protectors

Steel King's MEGA GUARD helps keep fork lift trucks and other in-plant vehicles from damaging facilities and equipment, while protecting employees. Rugged structural steel tubes, painted a bright safety yellow color, provide a visual and physical barrier against costly damage and injury.

One-piece, fully welded construction for quick installation. Tubes are welded "point-up" for cleanliness. Baseplates prepunched for anchor bolt installation.

TYPICAL APPLICATIONS

- Workstations
- In-plant offices
- Pallet rack row ends
- Aisles
- Conveyors
- Mesh partitions
- Machinery
- Walls
- Utilities supply equipment
- Mezzanines
- Dock areas

**ALSO
AVAILABLE:**

Other Steel King Safety Products

STEEL GUARD

protective railing is a modular protective railing system. Expandable and relocatable. Available as "single high," or "double high" as shown above. Prefabricated, eliminates all job-site core-drilling, cutting, welding or painting.

FREE STANDING COLUMN PROTECTORS

protect pallet rack columns from fork lift truck collision damage. May be added to existing rack systems. Available in any height, in "standard" or "heavy-duty" designs.

LIFT-OUT RAILS

for the STEEL GUARD system allows for protection *and* quick access to equipment requiring periodic repair or inspection. May be interspersed with standard bolted STEEL GUARD components.
