SC 775 Shown with optional equipment

Industrial environments demand a special kind of equipment. That's why Wesley International's electric vehicles are meticulously engineered for safety, reliability and low maintenance. From the dual front wheels to the sealed motor, Wesley's stock chasers offer increased stability and reduced down time. As a result, our Pack Mule stock chasers have been the choice of discerning buyers for years. They know that increased productivity and reduced maintenance costs deliver greater profit.

The Pack Mule SC 700 Series stock chasers maximize deck size for maximum load capacity and the SCT series adds extra tow capabilities up to 5,000 lbs to tow trailers. They are perfect for manufacturing facilities, warehouses, parts distribution centers, greenhouses and more. If our standard size doesn't fit your needs, we will custom build a vehicle that is just right for you. Our custom equipment is made with the same commitment to quality, safety and reliability.

Why buy a Pack Mule? Unique safety features, increased productivity, reduced maintenance and custom design... Can you afford not to buy a Pack Mule?
