  - Delrin Rollers with Stainless Steel Bushings and Stamped Stainless Roller Saddle and Swivel Hook.
  - Heavy Duty Track comes standard polished.
- **Non-stainless (galvanized steel) style hardware also available**

### Product Benefits

- Curtain is constructed with non-porous PVC materials leaving bacteria no place to grow
- Reduce process line shut down time during wash down cycles
- Improve plant sanitation
- Prevent cross contamination between processing lines
- Special open trolley and welded round track design to prevent bacteria from finding ledges and crevices to grow.
