cisco-eagle.com

OPTIMAL STORAGE, HANDLING AND AUTOMATION EFFICIENCY & PRODUCTIVITY

“The way you store, move and handle materials in industrial operations will increase productivity, reduce costs and create safer, more ergonomic production systems. Count on Cisco-Eagle to help you create efficient processes move and handle material as it enters, passes through, and departs manufacturing processes.”

– Jodie, Employee-Owner

PRODUCTIVE HANDLING SYSTEMS

Count on Cisco-Eagle to help you integrate conveyors, ergonomic equipment and storage solutions with your production process across the board.

SAFER OPERATIONS

Let Cisco-Eagle help you find ways to store, handle and transport materials throughout your operation safer and more efficiently. We have a dedicated safety automation team that focuses on forklift-pedestrian issues, as well as decades of experience in safe storage and handling systems.

SAVE LABOR AND TIME

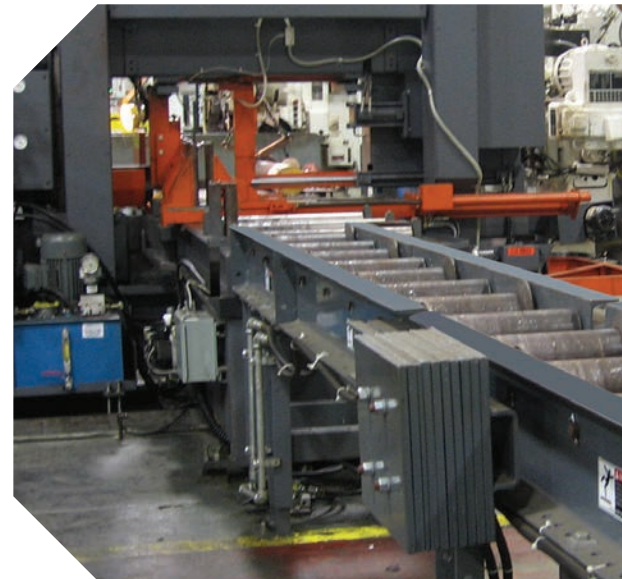

It's harder every year for manufacturers to find workers—skilled or unskilled. Count on us to help you find ways to reduce labor dependency and increase productivity without adding headcount.

SPACE EFFICIENCY & UTILIZATION

Better space utilization improves manufacturing efficiency. Can you delay or eliminate new facilities as you grow? Does your layout, storage and handling strategy help enhance your efficiency?

BETTER ERGONOMICS

Ergonomics may be the single easiest way to improve productivity—and that's aside from the improved safety. Count on us to help you reduce the reaching, stretching, straining and bending that sabotage productivity and generate injuries.

LONG TERM EXPERIENCE AND RESOURCES OPERATE FASTER AND BETTER

WHY CISCO-EAGLE?

- Founded in 1970 with deep manufacturing ties
- Engineering and project management resources
- In-house control systems: seasoned developers
- Local service, maintenance and installation

TRUSTED PROVEN PARTNERS

Cisco-Eagle is a material handling systems integrator. We've been in business since 1970 and have completed thousands of successful manufacturing projects.

Partnership

Many customers have trusted us to implement their projects for decades. We deliver value for the long term and become a reliable partner.

Experience

Cisco-Eagle has over 180 years of combined systems integration experience across its teams. We have executed thousands of projects over five decades.

Implementation

Project management is where we excel. The process ties subcontractors, shipments, equipment and various elements into a cohesive, high-performance system.

Innovation

We work in teams. We challenge each other to find ways to make our clients' systems to perform better and create lasting value—today, tomorrow and in a decade.

MATERIAL HANDLING SPECIALISTS

- *Conveyor Systems for Manufacturers*
- *Machine-Conveyor Integrations*
- *Controls Engineering and Programming*
- *Mezzanines, Platforms and Space Planning*
- *Robotics, AGVs and Automation*
- *Lifts, Hoist and Ergonomic Handling Systems*
