Crates and Totes

A Bin for Every Purpose

Decade Products supplies a complete line of plastic containers and totes for industrial, agricultural and food processing applications worldwide. Our products offer a unique level of quality, performance, and cost-effective advantages unlike any other containers on the market. Decade's line of strong, yet lightweight, completely reusable containers offer increased lifespan, superior corrosion resistance, and virtually no maintenance. For additional information on our entire product line of bins and pallets, please visit our website at www.decadeproducts.com.

Half-Bins

Half-Bins are uniquely designed to maximize truck and storage space - bins are completely foldable, nestable, and stackable. Made from HDPE, their robust construction ensures products are well protected against bruising or breakage. The Half-Bin is easy to clean, resists moisture, insects and fungi, impervious to acids, solvents and odors. These no-waste containers are environmentally friendly and are 100% recyclable. Custom colors and labels are also available.

Specifications

External Dimensions (LxWxH)	39.4" x 23.6" x 30.6"
Internal Dimensions (LxWxH)	37.4" x 21.6" x 24.2"
Dimensions When Folded (LxWxH)	39.4" x 23.6" x 12.2"
Tare Weight	57 lbs.
Maximum Load Capacity	440 lbs.
Volume	11.12 cubic feet
Stacking Capacity - Static	4 units / 2,020 lbs.
Stacking Capacity - Dynamic	3 units / 1,389 lbs.
Stackable Truck Height	3 bins
Nestable Truck Height	8 bins

**Half-Bins are foldable,
nestable, & stackable!**

engineered to increase your efficiency and profitability

Dynamic Shipper

The Dynamic shipper is a newly designed bin that features a rising floor, providing easy picking and safe filling. This feature offers the ultimate ergonomic solution. As product is pulled from the bin, the floor rises while the weight inside the bin decreases, providing for easier and safer access for the handler. The Dynamic Shipper is uniquely designed to maximize truck and storage space - bins are completely foldable, nestable, and stackable. Made from HDPE, their robust construction ensures products are well protected against bruising or breakage. The bin is easy to clean, resists moisture, insects and fungi, impervious to acids, solvents and odors. These no-waste containers are environmentally friendly and are recyclable at the end of their use. Custom colors and labels are also available.

Specifications

External Dimensions (LxWxH)	31.5" x 23.6" x 42.4"
Internal Dimensions (LxWxH)	29.5" x 21.7" x 33.5"
Dimensions When Folded (LxWxH)	31.5" x 23.6" x 23.9"
Tare Weight	57 lbs.
Maximum Load Capacity	551 lbs.
Volume	12.35 cubic feet
Stacking Capacity - Static	4 units / 12,000 lbs.
Stacking Capacity - Dynamic	2 units / 6,000 lbs.
Stackable Truck Height	2 bins
Nestable Truck Height	4 bins

Poly Crates

The Poly Crate is a rugged, reusable crate that yields significant cost savings over traditional disposable packing containers. They are nestable and stackable to maximize transport and minimize storage costs. The Poly Crate's robust construction ensures products are well protected, yet are extra light for handling ease. Poly Crates are easy to clean, environmentally friendly, and are available in various colors. Additional sizes are available for large order inquiries.

Specifications

External Dimensions (LxWxH)	23.62" x 19.68" x 8.55"
Internal Dimensions (LxWxH)	22.48" x 18.54" x 8.18"
Tare Weight	5.03 lbs.
Maximum Load Capacity	38 lbs.
Volume	18 cubic feet
Incremental Height - Nested	2.69"

Dynamic Lock RPC

The Dynamic Lock RPC is a newly designed hand tote that features fast, easy, and safe operation through a simple locking mechanism. The panels fold easily and quietly when the lock is released, and the lock automatically secures the panels when erected. Dynamic Lock RPC's are foldable and stackable to maximize truck and storage space. These long-lasting crates are ideal for picking orders, or moving product through your system. They are easy to clean, environmentally friendly, and fully recyclable.

Environmentally friendly, yet cost effective

Today, major industries worldwide are recognizing the growing importance of sustainable development and the requirement to meet the needs of the present without compromising the ability of future generations to meet their own needs. Our long and deep commitment to sustainable development is evidenced by the fact that all Decade products are made of 100% recyclable plastics, and truly represent an environmentally-friendly approach to the fabrication of high strength injection molded products.

Don't forget our full line of pallets, bulk shipping and storage containers for industrial, agricultural and food processing applications. They are engineered to stand the test of time, increase productivity and reduce material handling costs. For more information, please visit our website at www.decadeproducts.com.
