

A Fresh Choice in Bulk Harvest Bins

The MACX® bin you've known for years has a new big brother -

the MACX®48

Now you can avoid unnecessary produce transfers from harvesting equipment to trucks, to boxes, to burlap bags, and a myriad of other time-consuming steps. Transport produce directly from the field to the processing facility or straight onto the truck to market with the new MACX®48 bin from Decade Products. Contact us today for a free quote and learn how the MACX®48 can help streamline your operations.

- 48"x48"x28" bin fits directly on harvesting equipment, minimizing produce handling
- Four-way and two-way entry options available
- Two-way entry designed to work well in both positive and negative air flow chambers
- More vent slots for faster cooling and processing times
- In stock for immediate delivery - no minimum quantity
- Smooth interior surfaces allow better packout
- Load capacity up to 1,500 lbs., volume 49,603 cubic inches
- Engineered for safe stacking to 10 high, more space for products when stacked
- HDPE construction combines high strength with great impact resistance
- Does not harbor splinters, pests, pathogens, mold or other undesirable elements like wood bins
