START WITH A STANDARD BIN AND THEN...

ADD LIDS & LATCHES

Lids keep your contents clean, contained, and protected from the environment.

EMBOSS YOUR NAME OR LOGO

Own your bin by embossing your name, logo, text, or graphics on the side.

ADD CASTERS

Casters help improve efficiency, ergonomics, and workflow in manufacturing environments.

ADJUST HEIGHT, LENGTH, OR WIDTH

Size is everything when it comes to efficiency in handling, storing, and moving goods. Use a standard bin as a starting point to adjust its dimension anywhere in our ranges.

TRACK WITH AN RFID CARD

Identify and transmit information about the location of your bin.

ADD DOORS

Bin doors give you easier, more ergonomic access to the contents of your bins.

SPECIFY CUSTOM COLORS

Add color to code your inventory or match your brand with a specific color. Sorry, but vented bins only come in gray.

ADD A DRAIN

Drain liquid from your bins without the hassle of siphoning or the perils of tipping and pouring.

DECADE PRODUCTS.

We bring together knowledge, innovation, and technology to help makers and growers store and transport their products better. Talk with us about how we can help you.

CUSTOM BINS

WHEN STANDARD IS JUST THE STARTING POINT.

COMPACT & STACKABLE

We've built efficiency into our designs. Patented interlocking corners mean you can safely stack most bins 10 high. They also nest inside each other to save storage space and transport costs. Breakdown bin designs let you stack up to 6 high and can be easily disassembled, using 60% less space in storage.

REUSABLE & RECYCLABLE

HDPE plastic is both rugged and fully recyclable. Bins stand up to harsh conditions, over and over again for many years. When their useful life is done, they're also completely recyclable.

BINS AND PALLETS BUILT FOR YOUR BUSINESS

INNOVATION

IS IN OUR DNA.

Nowhere is that more apparent than in our ability to **customize solutions**—whether it's custom sizing to fit a material handling system, custom colors to match your brand, casters to improve workflow, doors for better access and ergonomics, lids, latches, drains, or more.

Our goal is to provide exactly the right bin for the application, without compromise. So when a standard product isn't exactly right, we don't ask you to accept good enough. We give you the flexibility to design custom solutions that are built specifically for your business.

Like all our bins, our **CUSTOM BINS** are...

BUILT TO LAST

All bins are made from high-density polyethylene (HDPE)—a versatile plastic that's incredibly strong, but surprisingly lightweight. They're extremely rugged. Impact-resistant. Temperature-resistant. UV-resistant. Weather-resistant. Rot-resistant. Mold- and mildew-resistant. They stand the test of time in even the harshest environments.

USDA FOOD-SAFE

Our bins are designed for the most rigorous demands in food processing and agricultural settings. Unlike wood bins, they don't harbor splinters, pests, pathogens, or mold. They meet all USDA/HACCP food handling standards. And they can be high-pressure washed, sterilized, and used over and over again for many years.

START WITH A STANDARD BIN

Choose a MACX bin as a starting point. From there, you can alter the size, color, and options to build the exact bin for your needs.

Most people start with a MACX bin, but we can customize virtually any bin to meet your needs. Just give us a call.

CHOOSE

MACXACE
48" L x 40"W x 31"H
Solid or vented

MACX
40" L x 48"W x 31"H
Solid or vented

Additional length, width, and height options are available. Please consult your local sales representative.

SIZE

Size is everything when it comes to efficiency in handling, storing, and moving goods. So beyond our standard sizes, we're happy to customize the height, length, and width of most any bin. Once you've selected a standard bin, use that as a starting point to adjust its dimension anywhere in the ranges shown below.

40" Width x 31" Height		
LENGTH ONLY ADJUSTMENT		RANGE
	For longer bins	Length 59"-112" Length 117"-136"
	For shorter bins	Length 20"-42"

48" Length x 31" Height		
WIDTH ONLY ADJUSTMENT		RANGE
	For wider bins	Width 49"-136"
	For narrower bins	Width 20"-36"

48" Length x 40" Width		
HEIGHT ONLY ADJUSTMENT		RANGE
	For taller bins	Height 36"-77"
	For shorter bins	Height 8"-30" (with caps) Height 14"-30" (welded)

31" Height		
LENGTH AND WIDTH ADJUSTMENT		RANGE
	For longer length AND narrower width bins	Length 49"-136" Width 20"-42"
	For shorter length AND narrower width bins	Length 20"-42" Width 20"-36"

40" Width		
LENGTH AND HEIGHT ADJUSTMENT		RANGE
	For shorter length AND height bins	Length 20"-42" Height 8"-30"

48" Length		
WIDTH AND HEIGHT ADJUSTMENT		RANGE
	For shorter width AND height bins	Width 20"-36" Height 8"-30"

COLORS

Choose from seven standard colors, or send us any custom color and we'll match it (minimum orders apply). Vented bins are only stocked in gray.

SIDE ACCESS

Get ergonomic access to bin contents three ways. Cutout walls, removable walls, or hinged drop doors make it easy to add to, access, or empty your bins.

LIDS

Keep contents clean, contained, and protected from the environment with HDPE structural foam lids available with three closure styles.

DRAINS

Two drain styles let you remove liquid safely without siphoning, tipping, or pouring. Drainplug designs have exterior threading for attachment to a hose or pump system. Bulkhead designs are flush mount with internal threads.

LABELS, CARD HOLDERS & RFID TAGS

Identify contents with adhesive labels, cardholders (available in adhesive mount or welded mount), or RFID tags that work with automated inventory management systems to identify and track bin contents.

RUNNERS

MACX series runners are replaceable and are available on the 40" or 48" side. MACX fit a wide range of material handling systems. MACX bins are all 4-way entry.

CASTERS

Casters improve efficiency, ergonomics, and workflow. Choose from polyurethane-on-iron or stainless steel in 4", 5", or 6". Both types of casters are available in all-swivel for free movement, rigid casters for uni-directional movement, or a combination of both.

Casters may be mounted through the runner (nonstackable) or through the bottom (stackable) in light- or heavy-load designs.

MATERIAL	SIZE
• Polyurethane-on-iron	• 4"
• Stainless steel	• 5"
	• 6"

MOVEMENT

- All-swivel with brake optional
- Rigid
- 2 Rigid/2 All-swivel with brake

RUNNER MOUNT (nonstackable)

THRU-BOTTOM MOUNT Lighter loads (stackable)

STACKABLE CASTERS Heavy loads

EMBOSSING

Permanently emboss your name, logo, text, or graphics on the side of your bin. Minimum orders apply.
