

# STOR-MORE® LOSS PREVENTION STORAGE LOCKER

### SLEEK CABINETS TO SECURE YOUR HIGH-VALUE PRODUCTS

#### STRUCTURAL INTEGRITY

Framed welded mesh is used all around the cabinet and the corners are designed with a sturdy  $2'' \times 2''$  tubing to provide excellent strength and stability.

#### OPTION TO SHIP PRE-ASSEMBLED When you order a pre-assembled cabinet all you have to do is bolt it to the floor!

# COMES WITH TWO SHELF LEVELS Each shelf level can support up to 200 lbs. UDL and additional shelves can be easily added.

#### VISIBILITY

Folding Guard's mesh design allows for a quick visual inspection of valuable items.

Standalone Stor-More® Loss Prevention Cabinets are designed to secure small- to medium-sized, high-value products in any location—on the sales floor, in the back room or in the receiving area. The open mesh design of the cabinet allows for a quick visual inspection of contents and does not obstruct sprinkler system performance.

Made from 10-gauge welded wire mesh panels on a 2"× 2" frame, constructed of 14-gauge tube, Stor-More® Loss Prevention Cabinets are extremely sturdy and durable. Hinged doors include a built-in cylinder lock and all lockers include two levels of shelves in 4-gauge welded wire. More shelves can be added depending on your needs.

2"×2" tubing provides strength and stability

All LPCs come equipped with a cylinder lock

#### 4000 SERIES

48" Wide | Hinge Door

PART No.	D×H	WEIGHT
LPC-4818-7	18"×84"	230 lbs.
