

# 1.5RPW *PARCEL HANDLING*

## SKATEWHEEL REMOVABLE PLASTIC WHEEL CONVEYOR

Gravity skatewheel utilizing plastic wheels for conveying light to heavy boxes and bags. Designed to allow the easy vertical removal of wheel assemblies to ease maintenance and minimize downtime.

### VARIATIONS

No variations

### CONVEYOR TYPE/APPLICATION

Gravity skatewheel conveyor used in conjunction with manual and automated sortation to convey a large range of package types quickly.

### PRICE

No comparisons

### FEATURES/BENEFITS

- Designed to meet the high volume, low down-time requirements of modern fulfillment applications
- Heavy-duty plastic wheels are very robust but light, and rotate freely, minimizing needed angle to convey
- Axle assemblies are removable from the top to prevent interference with side pan or in tight installations
