

# HSS PARCEL HANDLING

## HIGH SPEED SINGULATED CONVEYOR

Robust, modular design is ideal for the wear and tear of high capacity courier facilities, while accommodating rapid maintenance and repair. Meets UPS spec. for DRI-45 and TAIL-19 singulated flow.

## VARIATIONS

HSS-HD increases capacity by 20% by utilizing solid shaft tail pulleys and 6" take-up with spherical roller bearings

## PRICE

HSS < BPC

HSS < HSS-HD

## CONVEYOR TYPE/APPLICATION

Designed for parcel high speed singulated handling.

## FEATURES/BENEFITS

- Completely bolt-together slider bed design
- Utilizes heavy duty rollers in tails and take-up for ease of maintenance and cost efficiency
