

PLASTIC FILLED PARKING BLOCK

NEWEST TECHNOLOGY IN THE INDUSTRY

MAINTENANCE-FREE • DURABLE PRODUCTS

MANUFACTURED IN THE U.S.A.

Ideal Shield's Parking Block utilizes the newest technology in the plastics industry. Our parking block is made of an injection molded polypropylene skin filled with expanded polypropylene beads. The result is a 6 lb. parking block that is easy for one person to install, but durable enough to withstand extreme temperatures and every day wear and tear.

LIGHTWEIGHT | EASY TO SHIP | SIMPLE TO INSTALL

- ✓ **STRONGER, LASTS LONGER**
Will not crumble like concrete; chemical and weather resistant plastic
- ✓ **MAINTENANCE-FREE**
No painting, no chipping, no cracking, no bending, no breaking
- ✓ **EASY INSTALLATION**
Easily installed by one person. Hardware available for concrete or asphalt

PRODUCT FEATURES

- Engineered for optimal strength at lower weight
- LEED qualified; made from injection-molded recycled HDPE plastic
- Available in gray, blue, and yellow
- Handicap, Visitor, and Reserved decals

ENHANCED VISIBILITY

MAINTENANCE-FREE

Ideal Shield's products are designed to be a cost-effective way to improve safety in and around your facility, protecting your most valuable assets as well as enhancing the overall appearance.
