Woodmen Nissan
Colorado Springs, CO
AMDP

jswoodmennis1.jpg

The service department at Woodmen Nissan groups technician stations in pairs. Each technician has his own stacked SC/DW cabinet combination, overhead cabinet with retractable door and mobile cabinet; they share a sliding door shelf cabinet and a cabinet that holds their computer monitor.

jswoodmennis2.jpg

A computer monitor is kept in an open housing mounted to the wall. A keyboard tray mounted under the housing gives easy access to the keyboard without taking up counter space.

jswoodmennis3.jpg

Each technician's mobile cabinet can bring tools and a worksurface to the car being serviced.
