

Lista Workspace Solutions

*Shift Your Organization
Into High Gear*

LISTA
MAKING WORKSPACE WORK®

To operate at peak efficiency, motor vehicle and equipment service, repair and parts departments must incorporate the most effective storage and workspace systems.

At Lista, we create storage and workspace systems that allow you to meet your goals:

- *increasing profitability*
- *improving customer satisfaction*

You can accomplish these goals by investing in storage and workspace solutions that:

- *promote faster access and efficient service*
- *maximize available space*
- *improve inventory management*
- *enhance employee productivity*
- *create an aesthetically pleasing, professional image*

Maximize workspace. Lista's high density storage systems maximize usable workspace while providing improved organization for fast order picking and inventory taking. The right Lista storage system can turn a jam-packed, disorganized area into a clean, smooth-running workspace with needed parts, tools and equipment always close at hand.

Benefits that last. The benefits of Lista don't end there. Our storage and workspace systems are constructed to accommodate years of heavy-duty use. They feature lockable drawers for safe, protected storage of expensive tools and inventory. They are ergonomically designed. And their sleek, attractive design not only improves efficiency but impresses customers by enhancing your company's professional, quality image.

PARTS STORAGE

When the main issue is greater efficiency. Counter-height Lista cabinets with butcher block or steel tops create an organized, highly efficient, smooth-running issue counter in any parts department. Modular drawer and shelf cabinets provide clean, safe storage for a diverse array of fast-moving parts such as oil filters, nuts, bolts and air filters, and allow for their easy and fast retrieval. And with Lista's recessed drawer handles, nothing protrudes from the cabinet housing to snag clothing.

"Lista cabinets are far superior to anything else we've used. Their construction and ease of use beat every other brand we've tried. We particularly appreciate the greater accessibility of their wider, shallower drawers."

Vin Pellegrino
Parts Manager, Lincoln Mercury
Rodman Ford

Efficient storage is within easy reach.

Lista's high density modular cabinets meet all your storage needs:

- use as much as 40% less space than conventional shelving
- full extension drawers store all items within any worker's easy reach, reducing strain
- partitioning configurations in the drawers allow custom compartments for all your small and medium-sized parts

"It's mind-boggling how much we can store in our Lista cabinets. Plus, we've cut inventory time in half."

Robert Crete
Parts Operation Director
Boston Volvo Village

The benefits are stacking up. With the Lista drawer/shelf cabinet combination or the Lista Storage Wall® system, not an inch of storage space is wasted.

- *combine drawers and/or shelves to provide custom solutions that exactly match the size of the items you're storing*
- *the biggest and smallest of items can be stored together in a logical and accessible manner*
- *440 lb. weight capacity of drawers and roll-out trays enables you to store even the heaviest items within easy reach*

"We fit the contents of 34 shelving units into one Storage Wall system, with no space wasted. And we can add sections of Storage Wall, or even completely re-arrange the contents as our needs change."

Mark Bischoff
Parts Manager
Clair Honda

Tool storage for the contemporary service department. Our technician toolboxes and tool storage solutions offer a powerful combination of durable good looks and remarkable increases in productivity. As dealerships strive to project a professional, uniform appearance to attract and build customer confidence, Lista solutions provide the first-class image that communicates quality to both customers and employees. Unlike some one-size-fits-all products, Lista solutions are individually tailored to meet your specific requirements and improve your work environment.

"Our technicians are thrilled with the Lista benches. They have lots of counter space for their tools, with storage underneath. The solution isn't just visually great, it's functional too."

John Conway
Service Manager
Daytona Harley-Davidson

The ideal workspace solution for any space. At Lista, our modular approach lets us create workbenches that exactly suit your needs. Below the worksurface, you can choose from a wide array of cabinet pedestal widths and heights. Other storage options include roll-out trays and shelves behind either hinged or sliding doors. You can also build up from the work-surface with a choice of riser shelves and accessory options, and choose from a variety of workbench tops. Lista workbenches are ideal for technician, assembly and teardown applications.

"We love how functional, organized and good-looking our Lista benches are. We sell our shop as an important part of our service experience, and the Lista benches really impress our customers and contribute to our professional appearance."

Larry Bedell
Service Manager
Porsche/Audi of Nashua

The solution for tool storage on the go.

When you are repairing a vehicle, Lista mobile cabinets eliminate the need for constant trips back to the bench for tools and parts. For vehicle maintenance and repair applications, nothing compares with the flexibility, durability, security and functionality of our mobile cabinets. All Lista drawer storage cabinets can be adapted for mobile applications.

Special storage for special tools.

Lista's seven footprint sizes and eleven drawer heights, combined with Lista shelf storage, enable you to store even the largest tools and kits in one convenient location.

"Lista's engineers came up with a custom solution for housing our lift controls that's just marvelous. It's an outstanding design that's simple, clean and works great."

Jim Price
VP, Development
Rydell Automotive Group

Unique solutions. Lista's array of solutions can be tailored to solve almost any storage and workspace need.

Free design services. Lista's engineering and design team can provide you with a detailed plan for your individual workspace and storage needs, at no charge. Lista solutions are designed for efficiency and future flexibility, optimizing space and profitability.

Our free design services include:

- *floorspace utilization analysis*
- *customized surveys and layouts for parts storage and technician workspace*
- *integration with architectural and construction planning*
- *design planning for multi-line dealerships*

Products to meet every need. There are many other Lista solutions that are well-suited for service, repair and parts departments, such as overhead storage cabinets, workbenches for such specialized purposes as making keys and preparing shipments, computer cabinets for diagnostic equipment and electronic manuals, and storage cabinets in a wide array of heights, footprints and configurations.

We provide systematic solutions for a whole range of needs, from the storage of small tools to complete space-efficient, productive work environments. Let us show you how our years of experience in motor vehicle, equipment service and parts departments will prove profitable to you.
