

Storage Wall® Roller Shelf

Roller shelves come in two popular widths – 18" and 24"

Hinged security gate retains items on shelf while allowing easy access to contents

Roller levels can be easily adjusted in 1" increments

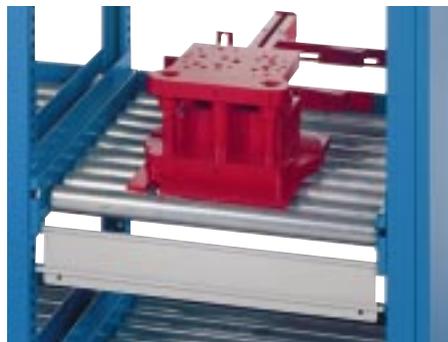

770 lb. load capacity

Easily retrofitted to existing Storage Wall systems

Designed to bring additional heavy-duty storage and convenience to Lista's modular Storage Wall system, the Storage Wall Roller Shelf is constructed of standard conveyor rollers, a front security gate and backstop. This unique solution allows items that weigh as much as 770 lbs. to easily glide into and out of the Storage Wall. Ideal for the storage of dies, molds and other heavy equipment and parts, the Roller Shelf is safe, ergonomic, and entirely unique.

The Roller Shelf's innovative design offers both superior flexibility and durability. Available in standard and shallow depths, the Roller Shelf can be easily retrofitted to existing Lista Storage Walls systems. Roller Shelf levels can be easily adjusted in one inch increments to maximize storage space and accommodate changing storage needs.

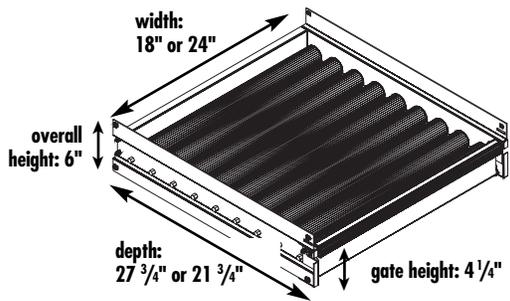

Front security gate and backstop retain stored items securely on the Roller Shelf.
