

Keg Flow Makes It Easy To Just Roll With It!

Cold storage is no place for inefficiencies. It's time to organize keg inventory to improve pick speed and accuracy. Get your team out of the cold and give them the best tool to do their job.

Keg flow rack is manufactured with the same high-quality precision and attention to detail applied to all our gravity flow products. The durable, galvanized rollers sit low on sturdy rails that double as rail guides. Keg flow is simple to use; no batteries or technology is needed --just the power of gravity.

Specifications:

- Hold up to 8 deep & 8 wide per 96" bay
- Full-width, heavy-duty rollers
- Custom widths & lengths available
- Roller width averages 1/2" wider than keg diameter
- Side guide rails avail in a range of heights to match keg specs

Advantages:

- Individual SKU lanes improve pick accuracy
- Dense, multi-level keg storage
- Faster pick rates with ergonomic positioning
- Optimize freshness with FILO (push-back), or FIFO (gravity flow) rotation
- Accommodate kegs of all sizes
- Fits standard pallet rack

Help Us Help You - Inventory Specs Needed to Customize Your Keg Flow System

- Type and size of kegs
- Min/max inventory of each style - allow for growth where expected
- Pallet rack specs - roll-form, structural, bay opening, beam dimensions
- How much room do you have for keg storage?
- What inventory rotation method do you use?
- How will the kegs be loaded/picked?
- Do you require galvanized finish?

Use our keg size chart to match your inventory specs to accommodate a range of standard keg sizes and shapes.

Size Up Your Keg Flow Design

	Home Brew	Sixth Barrel	Quarter Barrel	Slim Quarter	Half Barrel
AKA	Corny	Torpedo	Pony	Barrel	Full-Size Keg
Gallons	5.00	5.16	7.75	7.75	15.50
Ounces	640	661	992	992	1984
# of 12 oz beers	53	55	82	82	165
Weight (Full)	49 lbs.	58 lbs.	87 lbs.	87 lbs.	161 lbs.

Dimensions & weights may vary slightly between keg manufacturers.

The quarter keg, also known as Pony or Stubby Quarter, is available in two shapes. The rubber-sided version (Miller Brewing Co.) and the bulge, non-straight wall version (Coors Brewing Co.) both contain the same capacity and share a 17" diameter width.

Whatever size or style keg --there's a keg flow design for you. Contact your Mallard sales representative for a custom-configured solution and a free quote. Visit mallardmfg.com for more information on our economical and dependable gravity flow products.
