- Widest variety of accessories on the market
- Vertical expansion possible with our two-level shelving system
- Made in North America

USE YOUR SPACE TO ITS
FULL POTENTIAL

SHE2024 • SHE1024

SPIDER® SHELVING

IDEAL FOR A RANGE OF ENVIRONMENTS

OPEN SHELVING

CLOSED SHELVING

SHELVING WITH DRAWERS

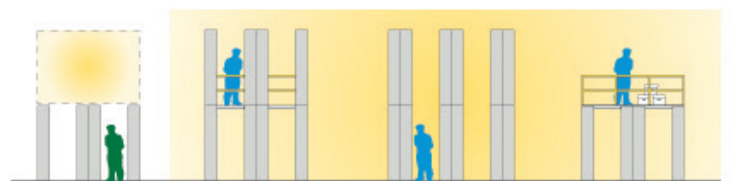

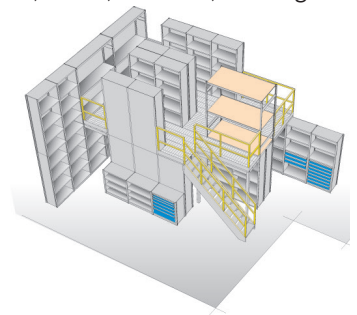

The Spider® Shelving System is heavy duty, easy to assemble, and is the most versatile and complete solution of its type on the market. With the ability to seamlessly combine industrial shelving, mini-racking and drawers in the same shelving system, it is the only solution that allows you to efficiently store small, medium and large parts together in the same unit. Designed for intensive use, the system helps you to use the space you have available to its full potential, in areas such as warehouses, repair shops and distribution centers.

OPTIMIZE YOUR INVESTMENT BY RECLAIMING UNUSED SPACE

Before you embark on an expansion project, consider Rousseau multi-level shelving, which makes efficient use of vertical space, as well as depth and width.

Our specialists will suggest solutions to work around all your building's obstacles: beams, columns, doors, air ducts, building structure, etc.

The system allows you to store more parts in less space, while also reducing trips back and forth and therefore wasted time.

MULTIPLE CONFIGURATIONS

Store small, medium and large parts together in the same unit

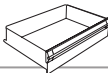

To add shelving for large parts, see the Mini-Racking section in the General Catalog

DESIGNED TO EXPAND
AS YOUR BUSINESS GROWS

SPECIFICATIONS

400lb./drawer
550lb.-1050lb./shelf*

3", 4", 5", 6", 7", 8",
