

PLANT & SHOP EQUIPMENT

One of the most important considerations in the design and production of plant equipment is the environment in which it will be used and the function it will serve. Products featured in this section are designed to relieve worker stress, to simplify job functions and to make them more efficient.

Schaefer has designed cabinets, trolleys, louvered panel systems, tool storage boxes and a variety of other products that help organize and streamline job functions in industrial installations or workshops. These products complement each other and adapt to changes in the work environment. A lot of thought has gone into the design of Schaefer's shop equipment to make it as job specific, user friendly and flexible as possible.

Equipment designed to improve the modern workplace...all from one source.

Safix Cabinets

Safix cabinets offer the best use of space in small areas. Available in a variety of heights, depths and widths, there is a size to fit most applications. Cabinets are available with and without doors, and can be ordered with or without containers. Different container color and size combinations are also available. Cabinets are the ideal organizer for the home, workshop or office.

Schaefer cabinets are a stove-enameled grey finish and the shelves are galvanized steel. Doors come equipped with secure locks and recessed handles.

Container colors will be shipped as shown unless different colors are specified, for an additional cost.

Cabinets

In addition to different shelf and container combinations, Schaefer cabinets can be outfitted as lockers or wardrobes. Available with 16" or 20" deep, they can be ordered with a lockable compartment, half shelves, or whatever shelf arrangement may be needed. All cabinets are manufactured from high-quality sheet metal. Reinforced doors and galvanized shelves are standard.

Small Parts Workstation Storage

Often, frequently used parts and supplies are kitted or stored near an assembly station in the plant, office or home. In many cases, it is desirable to have a portable tool case with all the supplies necessary for a maintenance or repair job. SSI has combined several of its standard components to provide a solution for the plant engineer, the home mechanic or handyman. These packaged solutions will provide you with the right part for your job. Additionally, if you have special requirements the uprights and wall panels can be configured to meet your needs.
