Description: A white low profile polyethylene sump for versatile secondary containment for small containers and packages.

Application: Designed to collect and contain countertop spills from beakers, bottles and other labware.

Product Features: The Ultra-Spill Trays help you maintain a clean safe lab environment.

- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage area clean and safe.
- Low-profile design is perfect for counter top spill containment for labware.
- Removable grating allows for quick, easy cleanup of small spills.
- Linear Low-density Polyethylene construction resists UV rays, rust, corrosion and most chemicals for long trouble-free life of the product.
- Designed for use in research, laboratory, medical and industrial facilities.
- Features built in pour spout to conveniently remove spills.

Composition: 100% polyethylene with UV inhibitors.

Usable Surface:

- 1060: 13 1/8" (333mm) x 8 1/2" (216mm)
- 1061: 17 1/8" (435mm) x 13 1/8" (333mm)

Disclaimers: Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources.
