

FLOW CELL[®] by UNEX

with *Tilted Pick Shelf*

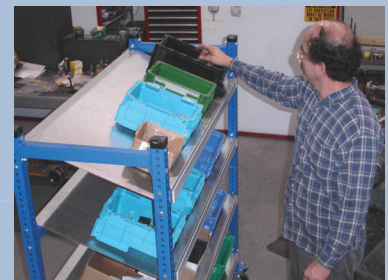

The tilted pick shelf model of the UNEX Flow Cell is a simple and effective tool for improving pick rates. It is a **complete unit** including posts, beams & 'drop-in' tilted shelf. Ideal for line side storage & parts picking, the shelf is angled at 22 degrees for improved view and access of picks. The Flow Cell tilted pick shelf offers standard accessories of casters, label holders and workbench. Flow Cells by UNEX are backed by a seven year "Platinum" warranty.

Posts & beams make up flow cell structure. Ships with bolt-on hardware. (1) worker needed to assemble. Tilted Pick Shelf drops in, no tools!

- **Heavy Duty**
- **Easy Set Up**
- **Drop-In Design**
- **Improves view & access of picks**
