DYNAMIC  
HIGH DENSITY  
STORAGE  
FOR FASTER  
EACH PICKS

Engineered Space Optimization

### Maximize Warehouse Space

Maximize warehouse space, pick orders faster and increase accuracy with SpeedCell® - a dynamic, high-density storage solution uniquely designed to save time, space, and money by using existing space within standard pallet racking.

SpeedCell can compress 200' of rack or shelving into 40' of highly organized space. More pick facings and greater SKU density equates to less travel time and less seek time while pulling orders and restocking locations.

Columns made of high-strength industrial textiles won't mold or rust and are fire/flame resistant. Columns are suspended from the patented\* steel track system which is made from pre-galvanized steel that integrates into any type of pallet rack beams.

### SpeedCell®

- Increases storage density by 40-60%
- Reduces labor costs up to 40%
- Transforms space into useable storage
- More SKUs | Less Space | Greater Efficiency

Each "Cell" has a unique location label holder making it easy to locate your product whether using basic paper picking methodology or advanced WMS/WCS for non-directed and/or directed put away & picking. Columns easily slide side-to-side to gain access to rear columns. Each location is ergonomically designed to reduce the need for deep bending, stretching or step stools.

### Features

- Designs can range from 1-3 rows deep, up to 12 columns wide (144" wide bays)
- Ergonomically designed
- Operating temperature of -20°- 180°F (-29°- 82°C)
- Resistant to: fire/flame & mold
- Storage Capacity:  
Cell: Up to 35 lbs  
Column: Up to 240 lbs

\*PATENT # 8.827.090

#### Standard Suspension System

- Suspended within selective rack or wide span rack system
- Fits within any type of beam: box, structural, or step; pick modules and mezzanines
- Static or dynamic: designs can range from 1-3 rows in depth

## Specifications

### AVAILABLE SIZES: SPEEDCELL COLUMNS

WIDTHS	12", 18" & 24"
DEPTHS	12" & 19"
CELLS PER COLUMN	4 - 12

12" columns will have 2000gsm Corrugated Plastic in the shelves.

18" and 24" columns will have 9.5mm Bubble X (honey comb) in the shelves.

12" Deep 3 Rows 19" Deep 2 Rows

### STANDARD LIP HEIGHT

4 - 9 CELLS	4"
10 - 12 CELLS	2.5"

### HEIGHT OF CELLS

4	19.5"
5	15.6"
6	13"
7	11.14"
8	9.75"
9	8.67"
10	7.8"
11	7.09"
12	6.5"

### SPEEDCELL COLUMN MATERIAL

WEIGHT	13 oz.
DENIER	1000
FMVSS 302 FLAME RESIST	PASS
TREATMENT	ANTI-MILDEW
CA FIRE CODE COMPLIANT	YES
CAPACITY PER COLUMN	240 lbs
CAPACITY PER CELL	35 lbs
COLOR	FROSTY WHITE
