

# HOPPERS

Wastequip hoppers were previously sold under the Galbreath brand, and still offer the same quality users have trusted for years.

# SELF-DUMPING HOPPERS

**Wastequip hoppers are great for storing, transporting and dumping scrap and bulk material.** Self-dumping hoppers are designed for industrial, commercial and institutional applications, and are particularly useful for in-plant housekeeping, in-process material handling, sorting and storing, scrap collection, materials recycling and other rugged applications. Self-dumping hoppers allow for safe and easy loading, transporting and dumping of material. Wastequip hoppers are available in a variety of configurations to fit your application. They have standard red oxide primer finish or can be painted in a variety of colors.

## FEATURES

- Standard red oxide primer finish
- Unique tapered press-fitted rocker pin that self-centers front and back and side to side when “rocked in”
- Standard hopper lock **1**
- Press-fitted locker pin **2**
- Spring-loaded latch with reinforced latch pin

---

## THE WASTEQUIP HOPPER PRODUCT OFFERING INCLUDES:

**HEAVY-DUTY SELF-DUMPING HOPPERS**  
1/8 to 1- 1/2 cubic yards

**HEAVY-DUTY SELF-DUMPING HOPPERS  
(Large Capacity)**  
1- 1/2 to 5 cubic yards

**HEAVY-DUTY SELF-DUMPING HOPPERS  
(Low Profile)**  
2- 1/2 to 3-1/2 cubic yards

**LIGHT-DUTY SELF-DUMPING HOPPERS**  
1/2 to 2-1/2 cubic yards

**OPEN-END SELF-DUMPING HOPPERS**

**DOCK CARTS**

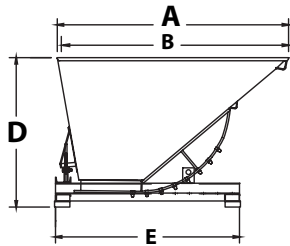

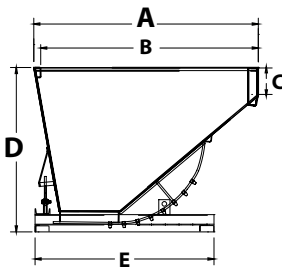

# LIGHT-DUTY SELF-DUMPING HOPPERS

## 1/2 TO 2-1/2 CUBIC YARDS

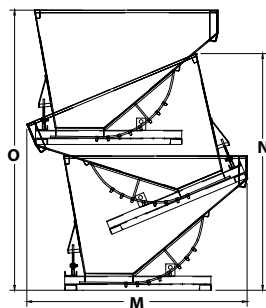

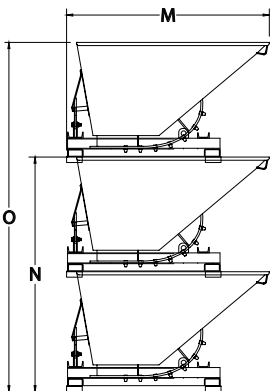

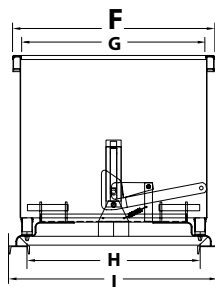

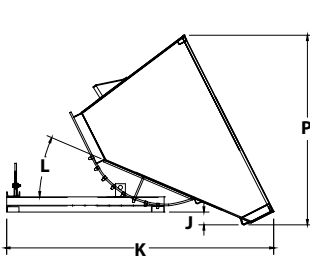

Wastequip light-duty self-dumping hoppers are ideal for lightweight materials or bulky materials that take up more space than weight. These hoppers are a great fit for lightweight recycling, plant maintenance, wood scraps of all types (sawdust, pallets, cabinets, paper mills), as well as cardboard, plastic and metal shavings. Hoppers are constructed of 12 gauge steel with fully welded rocker stop supports and formed base.

1/2, 1, 1-1/2 cubic yard hoppers

2, 2-1/2 cubic yard hoppers

## FEATURES

- 12 gauge steel body
- 1" round rocker stops
- Designed for 1,500 to 2,000 lb. capacities

# HEAVY-DUTY SELF-DUMPING HOPPERS

## 1/8 TO 1-1/2 CUBIC YARDS

Wastequip heavy-duty self-dumping hoppers are designed for forklift handling of materials, particularly for demanding applications such as commercial construction, machine shops, fabrication, in-process material handling, sorting and storing operations, materials recycling and scrap collection for metal, glass, stone and more. The 7 gauge steel body features a channel for additional support on the hopper body and an angle-reinforced formed steel base with 1" plate rocker stops. Rocker allows hopper to roll forward and backward for easier dumping with the pull of a handle. Rocker stops lock the hopper in place for safety.

### FEATURES

- Heavy-duty 7 gauge steel body
- 1" round rocker stops
- Designed for 1,500 to 6,000 lb. capacities

# HEAVY-DUTY SELF-DUMPING HOPPERS (LARGE CAPACITY)

1- 1/2 TO 5 CUBIC YARDS

Wastequip heavy-duty self-dumping, large capacity hoppers are designed for “shock” loads or conveyor feed applications for foundries, scrap haulers and similar applications that require a structural base. They feature a 7 gauge steel body with angle reinforcements and structural steel base.

## FEATURES

- Heavy-duty 7 gauge steel body
- 1" round rocker stops on 1-1/2, 2, 2-1/2 yd. models
- 1/4" round rocker stops on 3, 4 and 5 yd. models
- Designed for 4,000 to 6,000 lb. capacities

# HEAVY-DUTY SELF-DUMPING HOPPERS (LOW PROFILE)

2- 1/2 TO 3-1/2 CUBIC YARDS

Wastequip heavy-duty self-dumping hoppers with low profile design offer the advantage of increased capacity for equipment that requires a lower height requirement. Units incorporate a new heavy-duty base for forklift handling of materials, in-plant house-keeping, scrap collection and more. These hoppers feature a 7 gauge body with angle reinforcement and 1" round rocker stops.

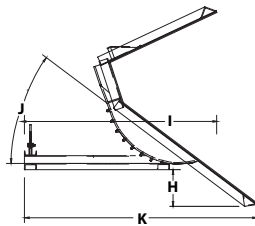

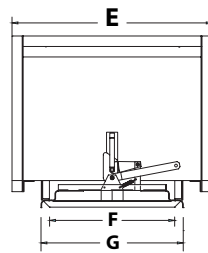

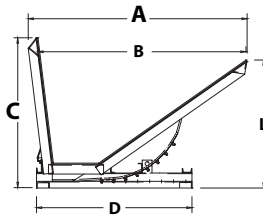

## FEATURES

- Heavy-duty 7 gauge steel body
- 1" round rocker stops
- Designed for 5,000 to 6,000 lb. capacities

# OPEN-END SELF-DUMPING HOPPERS

Wastequip open-end self-dumping hoppers are constructed from heavy gauge steel and designed for forklift handling of long materials. This hopper is ideal for lumber, plastic/metal pipe or re-bar, large sheet material, construction material or fencing scraps. It is designed to handle a variety of debris varying in length and thickness. These hoppers are constructed of 7 gauge formed channel frame and formed steel base equipped with 1" round rocker stops.

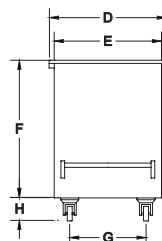

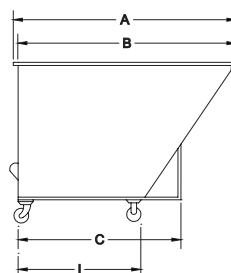

## FEATURES

- Heavy-duty 7 gauge formed channel frame and formed steel base
- 1" round rocker stops
- Designed for 360 to 690 lb. capacities
